

6929 N. Lakewood Avenue  
Tulsa, OK 74117

**PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)**

January 10, 2024

**Carrier:** Verizon Delaware LLC, 901 Tatnall Street, Wilmington, DE 19801

**Contact:** For additional information on these planned network changes, please contact:

Janet Gazlay Martin  
Director – Network Transformation  
Verizon Communications  
230 W. 36<sup>th</sup> Street, Room 802  
New York, NY 10018  
1-844-881-4693

**Implementation Date:** On or after July 11, 2024

**Planned Network Change(s) will occur at the following locations in Delaware:**

WIRE CENTER	ADDRESS	CLLI
NEWARK	1 WASHINGTON ST NEWARK, DE 19711	NWRKDENB

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

**Description of the Planned Network Change(s):**

Verizon intends to remove Nokia Multi-Customer Optical Network Terminal (MC-ONT) equipment from its fiber network at all locations in the one (1) wire center listed above. MC-ONT equipment is currently used to provide voice, video, and data services for customer locations in multi-tenant buildings in the above wire center. Verizon is removing MC-ONT equipment because the platform is in a “manufacturer-discontinued” status. This status may impair the timely maintenance or repair of existing MC-ONT facilities. As a replacement technology, Verizon will deploy Nokia Single Family Unit Optical Network Terminal (SFU-ONT) equipment.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

The same services offered over the MC-ONT platform will continue to be offered over the SFU-ONT platform. Verizon wholesale customers reselling services provided on an MC-ONT platform may be asked to assist with scheduling the migration appointment with their end users. To help ensure an orderly transition, Verizon may require customers and interconnecting entities to assist with scheduling end-user migrations well before the MC-ONT implementation date.
