Empower student success

Verizon Business Internet for K-12 schools.

Having the right technology and resources is important for your students' learning and development. A strong network foundation is necessary to provide a secure and engaged learning environment. Verizon can partner with you to deliver a reliable, wireless, fast, and highly secure connection virtually anywhere on campus—even when there are many devices connected to your network.

Comprehensive campus connectivity

Verizon Business Internet has the connectivity and scale to match your evolving campus needs. It provides a reliable, highly secure, and easily installed primary or backup internet broadband service to ensure continuity of operations. This robust wireless connectivity is ideal for specific campus requirements, such as bringing temporary pop-up locations and new building additions online quickly. It also provides the essential foundation for Internet of Things (IoT) solutions, delivering the connectivity needed to run third-party sensors and devices like intelligent security cameras, smoke and vaping detectors, and other safety and utility monitoring applications, such as cold storage monitoring. Furthermore, the network's high bandwidth and low latency deliver outstanding connectivity for advanced, immersive learning tools and programs like eSports.

Why choose Verizon?

Verizon has partnered with schools and school districts throughout the country for more than 30 years, offering decades of experience in providing security-rich, reliable communications. The result is a foundational network designed to scale easily and evolve with the needs of your school.

The core benefits of Verizon Wireless Business Internet

Rapid deployment:
Enjoy easy plug-and-play installation that takes hours or days, bypassing the stress and hassle of traditional deployments that take weeks or months.

Reliable speed and agility:
Powered by 5G and 4G LTE wireless technology, our network provides fast, reliable, and seamless communication between students and faculty.

Secure data transmission:
Benefit from an encrypted, highly secure platform designed to keep your school's data safe and accessible.

Graduate from traditional broadband to the power of Verizon Wireless Business Internet.

Let's find time to discuss how Verizon Business Internet can support your K-12 learning goals. Contact your Government Account Representative, click here, or call 844-825-8389 to learn more.
