Applicable to Business and Residential Customers:

- For recovery of contributions paid by the Company to recover Pay Telephone Per Call Compensation Surcharge

In order to recover the Company's expenses to comply with the Commission's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), unless otherwise stated in the individual Product Guide, an undiscountable per call charge is applicable to all interstate calls that originate from any domestic pay telephone not served by a line presubscribed to the Company used to access the Company's services on a dial-around (e.g., using an access code) basis. The Pay Telephone Surcharge, which is in addition to standard Product Guide listed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information that the originating station is an eligible pay telephone.
