NOTES TO CONDENSED FINANCIAL STATEMENTS (Unaudited)

1. Basis of Presentation

Verizon West Virginia Inc. (Verizon West Virginia or the Company) is a wholly owned subsidiary of Verizon Communications Inc. (Verizon). The accompanying unaudited condensed financial statements have been prepared in accordance with generally accepted accounting principles for interim periods. These condensed financial statements reflect all adjustments that are necessary for a fair presentation of results of operations and financial position for the interim periods shown including normal recurring accruals and other items. We have evaluated subsequent events through November 30, 2009, the date these condensed financial statements were issued. The results for the interim periods are not necessarily indicative of results for the full year. The balance sheet at December 31, 2008 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. For a more complete discussion of significant accounting policies and certain other information, you should refer to our December 31, 2008 audited financial statements.

The adoption of the following accounting standards and updates during the first nine months of 2009 did not result in a significant impact to our financial statements:

On June 15, 2009, we adopted the accounting standard regarding the general standards of accounting for, and disclosure of, events that occur after the balance sheet date but before the financial statements are issued. This standard was effective prospectively for all interim and annual reporting periods ending after June 15, 2009.

On June 15, 2009, we adopted the accounting standard that amends the requirements for disclosures about fair value of financial instruments for annual, as well as interim, reporting periods. This standard was effective prospectively for all interim and annual reporting periods ending after June 15, 2009.

On August 28, 2009 we adopted the accounting standard update regarding the measurement of liabilities at fair value. This standard update provides techniques to use in measuring fair value of a liability in circumstances in which a quoted price in an active market for the identical liability is not available. This standard update is effective prospectively for all interim and annual reporting periods upon issuance.

2. Telephone Access Lines Spin-off

On May 13, 2009, Verizon announced a definitive agreement with Frontier Communications Corporation (Frontier) that will result in Verizon establishing a separate entity, known as New Communications Holdings Inc. (Spinco), for its local exchange and related business assets in 13 states and parts of California. At the closing of this transaction, Verizon will distribute all of the outstanding shares of Spinco to Verizon's stockholders, and then Spinco will immediately merge with and into Frontier (the Frontier Merger).

Prior to the closing of the Frontier Merger, Verizon West Virginia will become a wholly-owned subsidiary of Spinco, and Verizon West Virginia will become a wholly owned subsidiary of Frontier at the closing of the Frontier Merger.

All outstanding long-term debt of Verizon West Virginia will continue to remain the obligation of Verizon West Virginia and be payable by Verizon West Virginia in accordance with its terms both prior to and following the Frontier Merger. All intercompany debt between Verizon West Virginia and Verizon or any of its subsidiaries will be eliminated prior to the closing of the Frontier Merger.

The Frontier Merger is subject to the satisfaction of certain conditions, including receipt of state and federal telecommunications regulatory approvals. We anticipate the Frontier Merger will close during the second quarter of 2010.

3. Shareowner's Investment

(dollars in thousands)	Common Stock	Contributed Capital	Reinvested Earnings
Balance at December 31, 2008	$ 208,979	$ 2	$ 12,405
Net income	---	---	61,492
Dividends paid	---	---	(43,177)
Return of capital	(16,821)	(2)	---
Other	---	---	---
Balance at September 30, 2009	$ 192,158	$ ---	$ 30,720

Net income and comprehensive income were the same for the three and nine months ended September 30, 2009 and 2008.

4. Fair Value of Debt

The fair value of our short-term and long-term debt, excluding capital leases, is determined based on market quotes for similar terms and maturities or future cash flows discounted at current rates. The fair value of our long-term and short-term debt, excluding capital leases, was approximately $237,241 thousand and $223,132 thousand at September 30, 2009 and December 31, 2008, respectively, as compared to the carrying value of approximately $230,356 thousand and $223,677 thousand at September 30, 2009 and December 31, 2008, respectively.

5. Pension and Benefit Charges

During the three and nine months ended September 30, 2009, we recorded pension settlement losses of $3,158 thousand related to employees that received lump-sum distributions primarily resulting from our previous separation plans in which prescribed payment thresholds have been reached.

6. Commitments and Contingencies

Various legal actions and regulatory proceedings are pending to which we are a party and claims which, if asserted, may lead to other legal actions. We have established reserves for specific liabilities in connection with regulatory and legal matters, including environmental matters that we currently deem to be probable and estimable. We do not expect that the ultimate resolution of pending regulatory and legal matters in future periods will have a material effect on our financial condition, but it could have a material effect on our results of operations.

From time to time, state regulatory decisions require us to assure customers that we will provide a level of service performance that falls within prescribed parameters. There are penalties associated with failing to meet those service parameters and we, from time to time, pay such penalties. We do not expect these penalties to have a material effect on our financial condition, but they could have a material effect on our results of operations.

7. Subsequent Event

On November 2, 2009, we declared and paid a dividend in the amount of $30 million to our parent, Verizon.
