PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

January 29, 2018

Verizon Pennsylvania LLC, 1717 Arch Street, Philadelphia, PA 19103

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
443-862-0212

John Dunne
Senior Manager – Global Data Network Engineering
Verizon Wireline Network Operations
2147 Route 27
Edison, NJ 08817
732-593-4003

Implementation Date: On or after August 3, 2018

Planned Network Change(s) will occur at the following locations:

<table>
<thead>
<tr>
<th>Verizon Central Office</th>
<th>Address</th>
<th>CLLI</th>
</tr>
</thead>
<tbody>
<tr>
<td>CAMDEN VOIP Tandem</td>
<td>900 Race Street, Philadelphia PA 19107</td>
<td>CMDNNJCEGT0/GT3</td>
</tr>
<tr>
<td>CAMDEN 05T Tandem</td>
<td>12 N. 7TH Street, Camden NJ 08102</td>
<td>CMDNNJCE05T</td>
</tr>
</tbody>
</table>

This notice may also be viewed at [http://www.verizon.com/about/terms-conditions/network-disclosures](http://www.verizon.com/about/terms-conditions/network-disclosures)

PLEASE NOTE:

- All references to the Camden VOIP Tandem switch are associated with CLLI code CMDNNJCEGT0/GT3 and will not be repeated throughout this notice.
- All references to the Camden 05T Tandem switch are associated with CLLI code CMDNNJCE05T and will not be repeated throughout this notice.
Description of the Planned Network Change(s):
The Verizon Camden VOIP Tandem switch located at 900 Race Street, Philadelphia PA 19107 will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Camden 05T switch located at 12 N. 7TH Street, Camden, NJ 08102. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):
Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers, will need to secure new trunk groups built to the Camden 05T switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Camden VOIP switch will be required to reposition the codes to the Camden 05T switch.

All ASRs for the Camden 05T switch must be received no later than July 11, 2018 in order to provide sufficient time to migrate the traffic described above. Direct end office trunk (DEOT) interconnections will support traffic migration for the Camden VOIP Tandem switch, prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted, prior to decommissioning of the Camden VOIP Tandem switch (on or after August 3, 2018). This will serve to guide interconnect re-routes of traffic for the two (2) native codes currently served by the Camden VOIP Tandem switch to reflect the Camden 05T switch as the new home switch. All ASRs for the Camden 05T switch must carry the project code of CMDNNJCEGT3.
