PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

March 19, 2018

Contact:  For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
443-862-0212

John Dunne
Senior Manager – Global Data Network Engineering
Verizon Wireline Network Operations
2147 Route 27
Edison, NJ 08817
732-593-4003

Implementation Date:  On or after October 6, 2018

Planned Network Change(s) will occur at the following locations in New Jersey:

<table>
<thead>
<tr>
<th>Verizon Central Office</th>
<th>Address</th>
<th>CLLI</th>
</tr>
</thead>
<tbody>
<tr>
<td>CRANFORD 5ESS Switch</td>
<td>34 Alden St., Cranford NJ 07016</td>
<td>CNFRNJCRDS5</td>
</tr>
<tr>
<td>NEW BRUNSWICK CS2K Switch</td>
<td>18 Paterson St., New Brunswick NJ 08901</td>
<td>NBWKNJNBPS1</td>
</tr>
</tbody>
</table>

This notice may also be viewed at http://www.verizon.com/about/terms-conditions/network-disclosures

PLEASE NOTE:
- All references to the Cranford NJ 5ESS switch are associated with CLLI code CNFRNJCRDS5 and will not be repeated throughout this notice.
- All references to the New Brunswick NJ CS2K switch are associated with CLLI code NBWKNJNBPS1 and will not be repeated throughout this notice.
Description of the Planned Network Change(s):
The Verizon Cranford 5ESS switch located at 34 Alden Street, Cranford, NJ 07016 will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon New Brunswick CS2K switch located at 18 Paterson Street, New Brunswick, NJ 08901. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):
Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the New Brunswick CS2K switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) interconnection with access connectivity in the Cranford 5ESS switch will be required to reposition the codes to the New Brunswick CS2K switch.

All ASRs for the New Brunswick CS2K switch must be received no later than September 14, 2018 in order to provide sufficient time to migrate the traffic described above. DEOT interconnections will support traffic migration for the Cranford 5ESS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Cranford 5ESS switch (on or after October 6, 2018). This will serve to guide interconnect re-routes of traffic for the six (6) native codes currently served by the Cranford 5ESS switch to reflect the New Brunswick CS2K switch as the new home switch. All ASRs for the New Brunswick CS2K switch must carry the project code of CNFRNJCRP0.
