PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

February 26, 2018

**Carrier:** Verizon New England Inc., 6 Bowdoin Square, 9th Floor, Boston, MA 02114

**Contact:** For additional information on these planned network changes, please contact:

Marcia Chaffin  
Verizon Network Engineering  
385 Myles Standish Blvd.  
Taunton, MA 02780  
978-552-3638

Quadre Washington  
Manager – Global Engineering and System Performance  
Verizon Wireline Network Operations  
99 Shawan Rd & York Rd, 05 Floor Room 5w17a  
Cockeysville, MD 21030  
410-856-2512

**Implementation Date:** On or after September 8, 2018

Planned Network Change(s) will occur at the following location(s) in Massachusetts:

<table>
<thead>
<tr>
<th>Verizon Central Office</th>
<th>Address</th>
<th>CLLI</th>
</tr>
</thead>
<tbody>
<tr>
<td>HANOVER DMS-100 Switch</td>
<td>319 Columbia Rd., Hanover, MA 02339</td>
<td>HNVRMACODS0</td>
</tr>
<tr>
<td>NEWTON Packet End Office (PEO) Switch</td>
<td>787 Washington St., Newton, MA 02160</td>
<td>NWTNMAWAPS0</td>
</tr>
</tbody>
</table>

This notice may also be viewed at [http://www.verizon.com/about/terms-conditions/network-disclosures](http://www.verizon.com/about/terms-conditions/network-disclosures)

PLEASE NOTE:
- All references to the Hanover, MA DMS-100 switch are associated with CLLI code HNVRMACODS0 and will not be repeated throughout this notice.
- All references to the Newton, MA Packet End Office (PEO) switch are associated with CLLI code NWTNMAWAPS0 and will not be repeated throughout this notice.
**Description of the Planned Network Change(s):**

The Verizon Hanover, MA DMS-100 switch, located at 319 Columbia Rd., Hanover, MA 02339, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Newton, MA PEO switch located at 787 Washington St., Newton, MA 02160. All traffic to be migrated includes, but is not limited to Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Newton, MA PEO switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) interconnections with access connectivity in the Hanover, MA DMS-100 switch will be required to reposition the codes to the Newton, MA PEO switch.

All ASRs for the Newton, MA PEO switch must be received no later than July 10, 2018 in order to provide sufficient time to migrate the traffic described above. DEOT interconnections will support traffic migration for the Hanover, MA DMS-100 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Hanover, MA DMS-100 switch (on or after September 8, 2018). This will serve to guide interconnect re-routes of traffic for the two (2) native codes currently served by the Hanover, MA DMS-100 switch to reflect the Newton, MA PEO switch as the new home switch. All ASRs for the Newton, MA PEO switch must carry the project code of HNVRMACODS0.
