Implementation Date: On or after June 29, 2016

Planned Network Change(s) Will Occur at the Verizon South Staten Island central office area:

Locations
Retirement of
copper network facilities
in the areas listed in
Exhibit A

Verizon Central Office
South Staten Island, NY
NYCRNYSS

Description of the Planned Network Change(s):

The property owner associated with an expiring easement is requiring Verizon to remove a remote terminal on the owner's property, which requires Verizon to move a number of impacted copper cables in the South Staten Island, NY central office. In connection with that move, Verizon is replacing those copper facilities with fiber facilities and retiring a number of copper facilities serving the locations listed on the attached Exhibit A. Verizon has deployed its fiber-to-the-home network in these locations and will continue to provide services over a fiber network infrastructure.

Description of reasonably foreseeable impact(s) of the planned change(s):

After the retirement of the copper facilities, Verizon will: (1) no longer offer services over copper facilities; and (2) cease maintaining the copper facilities. However, to the extent required by applicable agreements and federal law, Verizon will offer to requesting carriers a 64 Kbps voice-grade channel.

Exhibit A

The copper facilities associated with the following addresses served by Verizon's wire center located at 5180 Amboy Rd, Staten Island, NY 10312; CLLI: NYCRNYSS (South Staten Island).
