**SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(A)**

May 25, 2012

**Carrier:** Verizon Virginia L.L.C., 703 East Grace St, Richmond, VA 23219

**Contact:** For additional information on these planned network changes, please contact:

Dana Mies  
Verizon Communications  
Manager – Switch Engineering / Trunk Capacity Management – CA/FL/TX/VA  
610 N Morgan St, Tampa, FL 33602  
813-229-1926

**Implementation Date:** No earlier than September 27, 2012

**Planned Network Change(s) Will Occur at the Following Virginia Location(s):**

<table>
<thead>
<tr>
<th>Location</th>
<th>Verizon Central Office</th>
<th>CLLI Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>Granby St, Virginia</td>
<td>NRFLVAGSCG0</td>
<td></td>
</tr>
</tbody>
</table>

**Description of the Planned Network Change(s):**

The Verizon Granby St 1AESS End Office Switch office switch (NRFLVAGSCG0) located at 8910 Granby St, Norfolk, VA 23503, will be retired and removed after all traffic served by this switch is migrated to the alternative switch described below. Traffic currently coming to Granby will be migrated to the Chinese Corner CS 2000 (VRBHVVACPS0) located at 221 Dorset Ave, Virginia Beach, VA, 23458. All traffic will be migrated to the Chinese Corner switch, including Inter-LATA (ACCESS/FG-B-D/CLEC IXC), Wireless, and Paging trunks.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

CLEC IXC, IEC, wireless and paging carriers will need to secure new trunk groups built to the Chinese Corner PS0 Call Server 2000 or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Granby switch will be required to reposition the codes to the Chinese Corner switch.

All ASRs for the Chinese Corner Switch must be received no later than July 31, 2012 in order to provide sufficient time to migrate the traffic described above. All traffic must be moved by September 29, 2012. All ASRs for the Granby switch must carry the project code of NRFLVAGSRP0.
