 - 5.3 Renewal
6. DEFINITIONS

1. GENERAL

- 1.1 **Service Definition.** The Managed Identity, Access, and Privileged Access Management (IAM) with Accenture Services from Accenture International Limited (Accenture) provide 24 x 7 near real time identity and access management services through a combination of technology and skilled analysts to assist Customer with managing access to Customer's systems (Managed IAM with Accenture Services). Accenture will provide the Managed IAM with Accenture Services using a global delivery and support model from global delivery centers. Verizon is a reseller of Managed IAM with Accenture Services and will direct Accenture to fulfill Customer's Order for Managed IAM with Accenture Services. Customer, on behalf of itself and its end users, consents to Verizon sharing account information including account contact details with Accenture in order to facilitate account creation and other administrative functions.
- 1.2 **Location of Verizon Resale.** Verizon resells Managed IAM with Accenture Services in the jurisdiction where the Verizon Party to the Order is legally organized and Verizon's obligations of compliance with laws are limited to that jurisdiction.

2. SERVICES

2.1 **Managed IAM with Accenture Services**

- 2.1.1 **Service Features.** The Managed IAM with Accenture Services may include one or more of the following types of Services, each of which may be purchased by the Customer separately as specified in an Order: Identity Governance and Administration Services (IGA), Privileged Access Management (PAM), and Access Management (AM). The features of IGA, PAM, and AM are described at http://www.verizon.com/business/service_guide/reg/iam-accenture-service-terms.pdf (Managed IAM with Accenture Terms).
- 2.1.2 **Use of Service Terms.** Accenture will provide the Managed IAM with Accenture Services pursuant to the applicable Managed IAM with Accenture Terms. Verizon is not the licensor or provider of Managed IAM with Accenture Services and any Managed IAM with Accenture Services are directly provided to Customer from Accenture. When ordering Managed IAM with Accenture Services,

Customer acknowledges having read, understood, and agreed to the applicable Managed IAM with Accenture Terms. The Managed IAM with Accenture Terms: (i) govern Customer's use of, and access to, the relevant Managed IAM with Accenture Services; (ii) can be enforced against Customer; (iii) shall not in any way name or imply that Verizon is a party to such terms; and (iv) may be updated by Accenture from time to time upon notice. Customer further agrees that compliance with the Managed IAM with Accenture Terms is a condition to the use of the Managed IAM with Accenture Services.

2.1.3 If Accenture terminates or discontinues Customer's right to use or access the Managed IAM with Accenture Services under the Managed IAM with Accenture Terms, any Verizon obligation in connection with the Managed IAM with Accenture Services will also automatically terminate.

2.2 **Support.** Accenture will provide Level One, Level Two, and Level Three support to Customer as set forth in the Managed IAM with Accenture Terms.

2.3 **Reporting.** Depending on the Managed IAM with Accenture Services ordered by Customer, Accenture will provide Customer certain reports such as the number of identities and Applications managed as such reports are more fully set forth in the Managed IAM with Accenture Terms.

2.4 **Out of Scope.** The Managed IAM with Accenture Services will not include activities described as not in scope in the Managed IAM with Accenture Terms.

3. SUPPLEMENTAL TERMS

3.1 **Cancellation.** A Customer cancelling any Service Order for convenience before it has been accepted is subject to potential cancellation charges.

3.2 **Warranty Disclaimer.** In addition to any disclaimer of warranties in the Master Terms, Customer agrees that Verizon is not the provider of the Managed IAM with Accenture Services, and as such Verizon provides no warranties, guarantees, or assurances of quality or otherwise that apply to Managed IAM with Accenture Services including any relating to compliance with laws outside of the jurisdiction in which Verizon resells the Managed IAM with Accenture Services. Customer will seek support, maintenance, and fulfillment of all warranties, guarantees, and quality assurance, or otherwise issues solely from Accenture, and will not involve Verizon in the same. If Verizon, in its sole discretion, determines that an inquiry from Customer is related to a Managed IAM with Accenture Service, it may transfer the inquiry to the appropriate Accenture representative. Managed IAM with Accenture Services are governed solely by the Managed IAM with Accenture Terms and not the Agreement. Further, any Customer requirement with respect to the Managed IAM with Accenture Services must be agreed to directly with Accenture and Verizon. For the avoidance of doubt, any such requirement in the Master Terms is not applicable to the Managed IAM with Accenture Services.

3.3 **Customer Responsibilities**

3.3.1 **Customer Compliance.** Customer is solely responsible to ensure that its use of Managed IAM with Accenture Services is compliant with laws in any jurisdictions where Customer uses such Services.

3.3.2 **Required Consents and Notifications.** Customer (and not Verizon or Accenture) is responsible for taking any steps to gain any required consents by its end users and/or provide any notifications to its end users using any Managed IAM with Accenture Services as may be required by law or otherwise.

3.3.3 **Accounts.** In order to use the Managed IAM with Accenture Services, Customer may need to create an account with Accenture.

3.3.4 **Accenture's Collection and Processing of Customer Personal Data.** Any information that Customer provides to Accenture may be subject to Accenture's (or another party's) collection and processing of Customer's personal data policies, terms and conditions as set forth in the Managed

IAM with Accenture Terms. It is solely Customer's responsibility to understand how Customer's information may be accessed, used and shared by Accenture in connection with the Managed IAM with Accenture Services.

3.3.5 Protected Health Information. Customer will not use the Managed IAM with Accenture Services in a way that causes Verizon to create, receive, maintain, or transmit "protected health information" (PHI) that would make Verizon a "business associate" to Customer (as both terms are defined at 45 C.F.R. § 160.103). To the extent this prohibition is violated, Customer is fully responsible for the consequences.

3.3.6 Responsibility Matrix. Customer shall perform the activities specified for "Customer" in the Ongoing Activity Responsibility Matrix in the Managed IAM with Accenture Terms for the applicable Managed IAM with Accenture Service set forth in a Service Order.

3.4 Order of Precedence. In the event of any conflict or inconsistency between this Service Attachment and the Managed IAM with Accenture Terms, notwithstanding anything to the contrary in this Service Attachment, the terms of the Managed IAM with Accenture Terms will control solely as related to the Managed IAM with Accenture Services, including with respect to descriptions, features and performance of the Managed IAM with Accenture Services set forth in the Managed IAM with Accenture Terms.

4. SERVICE LEVEL AGREEMENT. The service level agreement (SLA) for Managed IAM with Accenture Services may be found in the Managed IAM with Accenture Terms.

5. FINANCIAL TERMS

5.1 Charges. Customer will pay the charges for the Managed IAM with Accenture Services as set forth in a Service Order and at the following URL:

www.verizon.com/business/service_guide/reg/m_paper_invoice_charge.htm Upon the Service Activation Date, Customer will be invoiced the monthly recurring charge (MRC), as applicable, for the Service Commitment. The Activation Date shall be the date upon which either Accenture or Verizon has provided notification or confirmation to the Customer that services have begun, whichever is earlier. Customer may order additional Managed IAM with Accenture Services including additional Users and Applications at any time and Customer will pay the charges for such additional services as set forth in the Service Order or applicable change order. Verizon reserves the right to audit or have audited the number of Users and Applications that Customer has on the Managed IAM with Accenture Services, and in the event that the number of Users or Applications exceeds the number ordered by Customer, Verizon reserves the right to charge Customer the applicable MRCs for such additional Users and Applications.

5.2 Service Commitment. The Service Commitment for Managed IAM with Accenture Services is specified in the applicable Service Order. Customer may order additional Managed IAM with Accenture Services at any time and each order will have the Service Commitment as set forth in the Service Order or applicable change order.

5.3 Renewal. Notwithstanding any terms to the contrary in the Master Terms, the provision of Managed IAM with Accenture Services shall automatically renew for subsequent one-year periods at the end of each Service Commitment unless written notice of intent not to renew is given: (i) by Customer to Verizon at least ninety days prior to the end of the then-current term; or (ii) by Verizon to Customer upon at least thirty days prior written notice. Fees during any renewal term shall be as specified in the applicable Service Order.

6. DEFINITIONS. The definitions in the Managed IAM with Accenture Terms apply to Managed IAM with Accenture Services, in addition to those identified in the Master Terms and the administrative charge definitions at the following URL:

www.verizon.com/business/service_guide/reg/definitions_toc_2017DEC01.htm
