Splunk Core

Splunk® Enterprise and Splunk Cloud™ deliver massive scale and speed to give you the real-time insights from machine data.

Splunk Enterprise enables you to aggregate, analyze and get answers from your machine data.

Splunk Cloud - Deploy Splunk as a service - No infrastructure required.

Splunk Enterprise Security

Splunk Enterprise Security helps you make better security decisions by gaining end-to-end visibility into your security posture with actionable intelligence that helps you prioritize and act fast.

Splunk User Behaviour Analytics helps you find anomalous behaviour, protecting against insider threats with machine learning-powered user and entity behaviour analytics.

SOAR (Security Orchestration, Automation, and Response) Security Operations Platform provides security orchestration & automation, enabling you to marshal the full power of your existing security investments.
