10. Message Telecommunications Service (MTS) Optional Toll Calling Plans

10.3 Measured Circle Calling Service

10.3.1 Description	
A.	Measured Circle Calling is offered, subject to the availability of facilities, as a supplement to one-party basic residence main telephone exchange service in the 617/508 LATA. Measured Circle Calling Service is limited to customers of record, at existing locations, on or before December 15, 2004.
B.	The service provides for one hour per month of cumulative message time of customer dialed calls placed to exchanges, zones and localities not exceeding 25 rate airline miles, which are outside the primary calling area of the service exchange/locality but within the 617/508 LATA in the Commonwealth of Massachusetts. Mileage is determined in the manner specified in Section 9.4.4. Calling areas are as specified in Exhibit 10.3.2-1.
C.	Measured Circle Calling is not available with Metropolitan, Suburban, Circle Calling, Bay State East or Eastern LATA Unlimited Calling Plan.
D.	Accumulation of message time is done on a per second basis. At the end of the customer's billing period, the sum of accumulated seconds is rounded to the next higher minute.

10.3.2 Application of Rates and Charges	
A.	Measured Circle Calling rates apply to customer dialed station-to-station sent-paid calls and operator dialed station-to-station sent-paid calls when facilities are not available for customer dial completion. The rates also apply to operator dialed station-to-station sent-paid calls for handicapped persons unable to dial calls because of their handicap. MTS rates apply to all other calls beyond the primary calling area.
B.	With one-party measured residence service in the Metropolitan Boston, Burlington, Lynn and Saugus exchanges, calls beyond the unlimited calling area for unlimited residence service as specified in Section 6 are billed as local usage rather than as Measured Circle Calling service usage.
C.	Measured Circle Calling rates and charges are in addition to the rates and charges for the associated one-party basic main telephone exchange service and other associated services.
D.	The Element 1 Service Order (Other Change) charge will be waived when existing customers subscribe to this service.
E.	The monthly rate for the initial one hour is applicable whether or not any calls are made.

10.5 Business Link

Effective October 1, 2011, Business Link is not available to new customers. Additions to this service are permitted at existing customer locations only.

10.5.1 Description	
A.	Business Link is an optional calling plan for business customers that provides discounts on qualifying usage charges billed to a Billed Telephone Number (BTN), for usage services provided by Verizon.
B.	A business BTN is eligible for the plan if the total billed charges for qualifying usage in a month is \$10.00 or more. The plan is implemented in the first full billing period following the customer's request to enroll in the plan.
C.	Qualifying usage consists of the following when billed to a BTN included in the plan. <ol style="list-style-type: none"> 1. Directly dialed local and MTS calls, including operator assisted calls where direct dialing is not available or the customer is disabled and not able to direct dial 2. Toll-Free
D.	Volume Discounts— A discount will be applied each month to the customer's qualifying usage charges for each BTN. The applicable percent discount will be determined by the total amount of monthly billed qualifying usage. For purposes of computing the discount level, each month's total combined charges for qualifying usage for each BTN at a single location are grouped into one of four tiers.

10.5.2 Terms and Conditions	
A.	Termination <ol style="list-style-type: none"> 1. Customers may terminate participation in the plan at any time. No previously applied discounts will be affected by customer termination and no termination charges will apply. 2. The termination will go into effect in the first full billing period following the billing period in which Verizon receives notification from the customer. 3. Additional BTN's which are added to the plan are governed by the terms and conditions stated in the initial service agreement.
B.	The plan is not available to BTNs that have contracted for a customer specific pricing plan, outward firm rate plan or inward firm rate plan.

10.5.3 Application of Rates and Charges	
A.	An Element 1 charge will not apply to establish the plan.

10.7 Sensible Minute Plan

10.7.1 Description	
A.	Sensible Minute is an optional calling plan which is offered as a supplement to one-party Unlimited, one-party Measured and Metropolitan service residence line customers.
B.	This service provides for a uniform per minute rate to be charged for the residence customers qualifying usage twenty-four hours a day, seven days a week. <ol style="list-style-type: none"> 1. Qualifying usage applies only to customer dialed station-to-station sent-paid calls and to those operator completed station-to-station sent-paid calls when facilities are not available for customer dial completion, and to operator completed station-to-station sent-paid calls for handicapped person unable to dial call because of their handicap. 2. Qualifying usage does not apply to calls to 700, 800, and 900 Services; third telephone number calls; collect calls; person-to-person calls; conference; directory assistance; call connect; *69 calls; time; weather or lottery calls; and other calls the normally require an operator except as listed above.
C.	Sensible Minute is not available with Measured Circle Calling and Expanded Community Calling Service Plus.
D.	Sensible Minute is not available with Eastern LATA Unlimited Calling, Bay State East, CallAround 413 Plus, Circle Calling, Suburban Service, residence PBX trunks, lines equipped with ISDN, Circuit 9, Student Centrex, 700, 800, or 900 services and group bridging telephone service numbers.
E.	Sensible Minute is available only to residence customers whose associated main telephone exchange service is provided over the Verizon access lines.

10.7.2 Application of Rates and Charges	
A.	Usage — A uniform rate per minutes applies and does not vary by time of day, day of week, or distance.
B.	Accumulation of message time is done on a whole minute basis. Individual messages with fractional total are rounded to the next higher minute.
C.	Sensible minute rates are in addition to other rates and charges for the associated one party main telephone exchange service and rates and charges for other associated services.
D.	A monthly rate applies per line equipped.
E.	Discounts <ol style="list-style-type: none"> 1. A discount does not apply to calling card calls. 2. MTS volume discounts do not apply to Sensible Minute usage. 3. Holiday rates do not apply to Sensible Minute usage.
