SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)

November 2, 2026

Carrier: Verizon New Jersey Inc., One Verizon Way, Basking Ridge, NJ 07920

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
410-375-9777

Michael Childs
Associate Director
Verizon Network Engineering
5055 North Point Pkwy.
Alpharetta, GA 30022
469-497-4466

Implementation Date: On or after December 30, 2026

Planned Network Change(s) will occur at the following locations in New Jersey:

Verizon Central Office	Address	CLLI
Belleville NJ DMS100 Switch	282-286 Washington Avenue Belleville, NJ 07109	**BLVLNJBEDS5**
New Brunswick NJ C20 Switch	18 Paterson Street New Brunswick, NJ 08901	**NBWKNJNBPS2**

This notice may also be viewed at
http://www.verizon.com/about/terms-conditions/network-disclosures

PLEASE NOTE:

- All references to the Belleville NJ DMS100 switch are associated with CLLI code BLVLNJBEDS5 and will not be repeated throughout this notice.
- All references to the New Brunswick NJ C20 switch are associated with CLLI code NBWKNJNBPS2 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):
The Verizon Belleville NJ DMS100 switch, located at 282-286 Washington Avenue, Belleville, NJ 07109, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon New Brunswick NJ C20 switch, located at 18 Paterson Street, New Brunswick, NJ 08901. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):
Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the New Brunswick NJ C20 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Belleville NJ DMS100 switch will be required to reposition the codes to the New Brunswick NJ C20 switch.

All ASRs for the New Brunswick NJ C20 switch must be received no later than December 3, 2026, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Belleville NJ DMS100 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Belleville NJ DMS100 switch (**on or after December 30, 2026**). This will serve to guide interconnect re-routes of traffic for the four (4) native codes currently served by the Belleville NJ DMS100 switch to reflect the New Brunswick NJ C20 switch as the new home switch.
