Basking Ridge, NJ 07920

SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)

November 2, 2026

Carrier: Verizon New Jersey Inc., One Verizon Way, Basking Ridge, NJ 07920

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
410-375-9777

Michael Childs
Associate Director
Verizon Network Engineering
5055 North Point Pkwy.
Alpharetta, GA 30022
469-497-4466

Implementation Date: On or after December 30, 2026

Planned Network Change(s) will occur at the following locations in New Jersey:

Verizon Central Office	Address	CLLI
Cherry Hill NJ 5ESS Switch	2501 Church Road Cherry Hill, NJ 08002	**CRHLNJCHDS5**
Camden NJ CS2K Switch	12 N. 7th Street Camden, NJ 08102	**CMDNNJCEPS0**

This notice may also be viewed at
http://www.verizon.com/about/terms-conditions/network-disclosures

PLEASE NOTE:

- All references to the Cherry Hill NJ 5ESS switch are associated with CLLI code CHRLNJCHDS5 and will not be repeated throughout this notice.
- All references to the Camden NJ CS2K switch are associated with CLLI code NBWKNJNBPS2 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):
The Verizon Cherry Hill NJ 5ESS switch, located at 2501 Church Road, Cherry Hill, NJ 08002, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Camden NJ CS2K switch, located at 12 N. 7th Street, Camden, NJ 08102. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):
Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Camden NJ CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Cherry Hill NJ 5ESS switch will be required to reposition the codes to the Camden NJ CS2K switch.

All ASRs for the Camden NJ CS2K switch must be received no later than December 1, 2026, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Cherry Hill NJ 5ESS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Cherry Hill NJ 5ESS switch (**on or after December 30, 2026**). This will serve to guide interconnect re-routes of traffic for the six (6) native codes currently served by the Cherry Hill NJ 5ESS switch to reflect the Camden NJ CS2K switch as the new home switch.
