</tbody>
</table>

This notice may also be viewed at [http://www.verizon.com/about/terms-conditions/network-disclosures](http://www.verizon.com/about/terms-conditions/network-disclosures)

PLEASE NOTE:
- All references to the West Seneca, NY 5ESS switch are associated with CLLI code WSNCNYUNDS0 and will not be repeated throughout this notice.
- All references to the Buffalo, NY CS2K switch are associated with CLLI code BFLONYFRPS0 and will not be repeated throughout this notice.
Description of the Planned Network Change(s):
The Verizon West Seneca, NY 5ESS switch, located at 1091 Union Rd., West Seneca, NY 14224, will be retired and removed from the network after all traffic served by this switch has been migrated to the Verizon Buffalo, NY CS2K switch located at 65 Franklin street, Buffalo, NY 14202. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/I XC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):
Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Buffalo, NY CS2K or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the West Seneca, NY 5ESS switch will be required to reposition the codes to the Buffalo, NY CS2K switch.

All ASRs for the Buffalo, NY CS2K switch must be received no later than February 13, 2018 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the West Seneca, NY 5ESS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the West Seneca, NY 5ESS switch (on or after March 24, 2018). This will serve to guide interconnect re-routes of traffic for the three (3) native codes currently served by the West Seneca, NY 5ESS switch to reflect the Buffalo, NY CS2K switch as the new home switch. All ASRs for the Buffalo, NY CS2K switch must carry the project code of WSN CNYUNDS0.
