John Dunne  
Manager – Global Network Engineering and Operations  
Verizon Wireline Network Operations  
999 West Main St., 2<sup>nd</sup> Floor  
Freehold, NJ 07728  
732-683-5126

**Implementation Date:** On or after **February 29, 2020**

**Planned Network Change(s) will occur at the following location in New York:**

Verizon Central Office	Address	CLLI
Pearl Street NY CS2K Switch	375 Pearl St., Manhattan, NY 10038	NYCMNYSPSP0
Pearl Street NY C20 Switch	375 Pearl St., Manhattan, NY 10038	NYCMNYSPSP1

**This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>**

PLEASE NOTE:

- All references to the Pearl St. NY CS2K switch are associated with CLLI code NYCMNYSPSP0 and will not be repeated throughout this notice.

- All references to the Pearl Street NY C20 switch are associated with CLLI code NYCMNYPSPS1 and will not be repeated throughout this notice.

**Description of the Planned Network Change(s):**

The Verizon Pearl St. NY Class 5 CS2K packet switch (NYCMNYPSPS0) and associated Call Agent (NYCMNYPSCA0), located at 375 Pearl St., New York, NY 10038, will be decommissioned and replaced by the new Verizon Pearl St. NY Class 5 C20 packet switch (NYCMNYPSPS1), located at 375 Pearl St., New York, NY 10038 and the new associated C20 Call Agent (WHPLNYWPCA1). All traffic to be cutover to the Pearl St. NY C20 switch (NYCMNYPSPS1) includes, but is not limited to, inter-LATA access traffic (including Feature Groups B and D traffic), intra-LATA traffic, and local traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Pearl St. NY C20 switch NYCMNYPSPS1.

All ASRs for the Pearl St. NY C20 switch (NYCMNYPSPS1) for trunk interconnection must include the project code of **NYCMNYPSPS0**. All carriers (e.g., CLEC, wireless or IEC) should submit direct end office trunk (DEOT) orders no later than **January 6, 2020**. These DEOT interconnections will support traffic migration with the Pearl St. NY CS2K switch (NYCMNYPSPS0) prior to its eventual decommissioning. Prior to decommissioning of the Pearl St. NY CS2K switch (NYCMNYPSPS0), on or after **February 29, 2020**, LERG change effective dates will be posted. This will serve to guide interconnect re-routes of traffic for the one hundred and twenty-one (121) native codes currently served and hosted by the Pearl St. NY CS2K switch (NYCMNYPSPS0) to reflect the new Pearl St. NY C20 switch (NYCMNYPSPS1) as the new home switch.
