SHORT TERM PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.333(a)

February 13, 2019

Carrier: Verizon Pennsylvania LLC, 900 Race Street, Philadelphia, PA 19107

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
443-862-0212

John Dunne
Senior Manager – Global Data Network Engineering
Verizon Wireline Network Operations
2147 Route 27
Edison, NJ 08817
732-593-4003

Implementation Date: On or after July 1, 2019

Planned Network Change(s) will occur at the following locations in Pennsylvania:

<table>
<thead>
<tr>
<th>Verizon Central Office</th>
<th>Address</th>
<th>CLLI</th>
</tr>
</thead>
<tbody>
<tr>
<td>STEELTON PA DMS 100 Switch</td>
<td>100 S. 2nd Street, Steelton, PA 17113</td>
<td>SLTNPASTDS0</td>
</tr>
<tr>
<td>HARRISBURG PA CS2K Switch</td>
<td>210 Pine Street, Harrisburg, PA 17101</td>
<td>HRBGPAHAPS0</td>
</tr>
</tbody>
</table>

This notice may also be viewed at [http://www.verizon.com/about/terms-conditions/network-disclosures](http://www.verizon.com/about/terms-conditions/network-disclosures).
PLEASE NOTE:

- All references to the Steelton PA DMS 100 switch are associated with CLLI code SLTNPASTDS0 and will not be repeated throughout this notice.
- All references to the Harrisburg PA CS2K switch are associated with CLLI code HRBGPAHAPS0 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):
The Verizon Steelton PA DMS 100 switch located at 100 S. 2nd Street, Steelton, PA 17113, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Harrisburg PA CS2K switch located at 210 Pine Street, Harrisburg, PA 17101. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):
Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Harrisburg PA CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Steelton PA DMS 100 switch will be required to reposition the codes to the Harrisburg PA CS2K switch.

All ASRs for the Harrisburg PA CS2K switch must be received no later than June 14, 2019 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Steelton PA DMS 100 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Steelton PA DMS 100 switch (on or after July 1, 2019). This will serve to guide interconnect re-routes of traffic for the three (3) native codes currently served by the Steelton PA DMS 100 switch to reflect the Harrisburg PA CS2K switch as the new home switch. All ASRs for the Harrisburg PA CS2K switch must carry the project code of SLTNPASTRP0.
