PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

March 27, 2019

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
443-862-0212

John Dunne
Senior Manager – Global Data Network Engineering
Verizon Wireline Network Operations
2147 Route 27
Edison, NJ 08817
732-593-4003

Implementation Date: On or after October 1, 2019

Planned Network Change(s) will occur at the following locations in New Jersey:

<table>
<thead>
<tr>

This notice may also be viewed at http://www.verizon.com/about/terms-conditions/network-disclosures.
PLEASE NOTE:

- All references to the Salem NJ DMS 100 switch are associated with CLLI code SALMNJSADS5 and will not be repeated throughout this notice.
- All references to the Camden NJ CS2K switch are associated with CLLI code CMDNNJCEPS0 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):
The Verizon Salem NJ DMS 100 switch located at 86 W. Broadway, Salem, NJ 08079, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Camden NJ CS2K switch located at 12 N. 7th St., Camden, NJ 08104. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):
Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Camden NJ CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Salem NJ DMS 100 switch will be required to reposition the codes to the Camden NJ CS2K switch.

All ASRs for the Camden NJ CS2K switch must be received no later than September 6, 2019 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Salem NJ DMS 100 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Salem NJ DMS 100 switch (on or after October 1, 2019). This will serve to guide interconnect re-routes of traffic for the three (3) native codes currently served by the Salem NJ DMS 100 switch to reflect the Camden NJ CS2K switch as the new home switch. All ASRs for the Camden NJ CS2K switch must carry the project code of SALMNJSARP0.
