This notice may also be viewed at: http://www.verizon.com/about/terms-conditions/network-disclosures

PLEASE NOTE:
- All references to the Arlington VA DMS 78T tandem switch are associated with CLLI code ARTNVAAR78T and will not be repeated throughout the notice.
• All references to the Southwest DC DMS C20 G0T tandem switch are associated with CLLI code WASHDCSWG0T and will not be repeated throughout the notice.

**Description of the Planned Network Change(s):**
The Arlington VA DMS 78T tandem switch located at 1025 N. Irving St., Arlington, VA 22201 will be retired and removed from the Verizon network after all traffic served by this switch is migrated to the Southwest DC DMS C20 G0T tandem switch located at 30 E St. S.W., Washington, DC 20024. All traffic to be migrated to the Southwest DC DMS C20 G0T tandem switch includes, but is not limited to, inter-LATA access traffic (including Feature Groups B and D traffic), and intra-LATA and local traffic (including CLEC, IEC, wireless and paging traffic).

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**
All carriers, including competitive local exchange carriers (CLECs), interexchange carriers (IXC, IEC), wireless, and paging carriers, will need to provision new trunk groups to the Southwest DC DMS C20 G0T tandem switch to replace existing trunk groups in the Arlington VA DMS 78T tandem switch.

All ASRs for the Southwest DC DMS C20 G0T tandem switch must be received no later than **March 2, 2020** in order to provide sufficient time to migrate the traffic described above. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Arlington VA DMS 78T tandem switch (**on or after May 1, 2020**). This will serve to guide interconnect re-routes of traffic for the NPA codes currently served by the Arlington VA DMS 78T tandem switch to reflect the Southwest DC DMS C20 G0T tandem switch as the new home switch. All trunks to the Southwest DC DMS C20 G0T tandem switch must be in place prior to the decommissioning of the Arlington VA DMS 78T tandem switch. All ASRs for the Southwest DC DMS C20 G0T tandem switch must carry a project code of **ARTNVAAR78T**.
