**PLEASE NOTE:**

- All references to the Annapolis MD CS2K switch are associated with CLLI code ANNPMDANPS0 and will not be repeated throughout the notice.
- All references to the Annapolis MD C20 switch are associated with CLLI code ANNPMDANPS1 and will not be repeated throughout the notice.

**Description of the Planned Network Change(s):**

The Annapolis MD CS2K switch located at 9 Northwest Street, Annapolis, MD 21401 will be retired and removed from the Verizon network after all traffic served by this switch is migrated to the Annapolis MD C20 switch, located at 9 Northwest Street, Annapolis, MD 21401. All traffic to be migrated to the Annapolis MD C20 switch includes, but is not limited to, local and Intra-LATA; Inter-LATA (ACCESS/FG-B-D/CLEC IXC); wireless; and paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

All carriers, including competitive local exchange carriers (CLECs); Interexchange carriers (IXCs, IECs); and wireless and paging carriers, will need to provision new trunk groups to support direct end office trunking to the Annapolis MD C20 switch.

All ASRs for the Annapolis MD C20 switch must be received no later than **May 17, 2020** in order to provide sufficient time to migrate the traffic described above. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Annapolis MD CS2K switch (**on or after July 17, 2020**). This will serve to guide interconnect re-routes of traffic for the Numbering Plan Area (NPA) code currently served by the Annapolis MD CS2K switch to reflect the Annapolis MD C20 switch as the new home switch. All trunks to the Annapolis MD C20 switch must be in place prior to the decommissioning of the Annapolis MD CS2K switch. All ASRs for the Annapolis MD C20 switch must carry a project code of **ANNPMDANPS0**.
