

6929 N. Lakewood Avenue  
Tulsa, OK 74117

**PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)**

December 1, 2021

**Carrier:** Verizon New York Inc., 140 West Street, New York, NY 10007

**Contact:** For additional information on these planned network changes, please contact:

Marcia Chaffin  
Verizon Network Engineering  
385 Myles Standish Blvd.  
Taunton, MA 02780  
978-552-3638

John Dunne  
Manager – Global Engineering and System Performance  
Verizon Wireline Network Operations  
999 W Main St., 04 FLR, Freehold, NJ USA 07728  
732-683-5126

**Implementation Date:** On or after August 1, 2022

**Planned Network Change(s) will occur at the following location(s) in New York:**

Verizon Central Office	Address	CLLI
Cattaraugus NY DMS10 switch	7 South Street Cattaraugus, NY 14719	<b>CTRGNYSODS0</b>
Buffalo NY Packet End Office (PEO) switch	65 Franklin Street Buffalo, NY 14202	<b>BFLONYFRPS0</b>

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Cattaraugus NY DMS10 switch are associated with CLI code CTRGNYSODS0 and will not be repeated throughout this notice.
- All references to the Buffalo NY PEO switch are associated with CLI code BFLONYFRPS0 and will not be repeated throughout this notice.

### **Description of the Planned Network Change(s):**

The Verizon Cattaraugus NY DMS10 switch, located at 7 South Street, Cattaraugus, NY 14719, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Buffalo NY PEO switch, located at 65 Franklin Street, Buffalo, NY 14202. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

### **Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Buffalo NY PEO switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Cattaraugus NY DMS10 switch will be required to reposition the codes to the Buffalo NY PEO switch.

All ASRs for the Buffalo NY PEO switch must be received no later than June 15, 2022 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Cattaraugus NY DMS10 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Cattaraugus NY DMS10 switch (**on or after August 1, 2022**). This will serve to guide interconnect re-routes of traffic for the one (1) native code currently served by the Cattaraugus NY DMS10 switch to reflect the Buffalo NY PEO switch as the new home switch. All ASRs for the Buffalo NY PEO switch must carry the project code of CTRGNYSODS0.
