

6929 N. Lakewood Avenue
Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

July 15, 2022

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Marcia Chaffin
Global Engineering and System Performance
385 Myles Standish Blvd.
Taunton, MA 02780
978-552-3638

John Dunne
Manager – Global Engineering and System Performance
Verizon Wireline Network Operations
2147 Route 27, 04 Floor
Edison, NJ 08817
732-593-4003

Implementation Date: On or after March 4, 2023

Planned Network Change(s) will occur at the following locations in New York:

Verizon Central Office	Address	CLLI
ALBANY NY CS2K Switch	158 State Street, Albany, NY 12207	ALBYNYSSPS0
ALBANY NY C20 Switch	158 State Street, Albany, NY 12207	ALBYNYSSPS1

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Albany NY CS2K switch are associated with CLLI code ALBYNYSSPS0 and will not be repeated throughout this notice.
- All references to the Albany NY C20 switch are associated with CLLI code ALBYNYSSPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Albany NY CS2K switch, located at 158 State Street, Albany, NY 12207, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Albany NY C20 switch, located at 158 State Street, Albany, NY 12207. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Albany NY C20 switch. Carriers that are code holders for access connectivity in the Albany NY CS2K switch will be required to reposition the codes to the Albany NY C20 switch.

All ASRs for the Albany NY C20 switch must be received no later than January 1, 2023 to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Albany NY CS2K switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Albany NY CS2K switch (**on or after March 4, 2023**). This will serve to guide interconnect re-routes of traffic for the six (6) native codes currently served by the Albany NY CS2K switch to reflect the Albany NY C20 switch as the new home switch. All ASRs for the Albany NY C20 switch must carry the project code of **ALBYNYSSPS0**.
