

6929 N. Lakewood Avenue Tulsa, OK 74117

#### SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)

November 15, 2023

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

**Contact:** For additional information on these planned network changes, please contact:

Marcia Chaffin Verizon Network Engineering 385 Myles Standish Blvd. Taunton, MA 02780 978-552-3638

Quadre Washington Manager – Global Engineering and System Performance Verizon Wireline Network Operations 320 Saint Paul Pl Baltimore, MD 21202 410-736-4261

Implementation Date: On or after May 1, 2024.

# Planned Network Change(s) will occur at the following location(s) in New York:

Verizon Central Office	Address	CLLI
Mariaville, NY DMS100 Remote	7910 Mariaville Road, Mariaville, NY	MARVNYMVRS0
Switch	12053	
Mariaville, NY T1000 Remote	7910 Mariaville Road, Mariaville, NY	MARVNYMVRP0
Packet Switch	12053	
Albany, NY Packet End Office	158 State Street, Albany, NY 12207	ALBYNYSSPS0
Switch		

This notice may also be viewed at <u>http://www.verizon.com/about/terms-conditions/network-disclosures</u>

## PLEASE NOTE:

- All references to the Mariaville, NY DMS100 remote switch are associated with CLLI code MARVNYMVRS0 and will not be repeated throughout this notice.
- All references to the Mariaville, NY T1000 remote packet switch are associated with MARVNYMVRP0 and will not be repeated throughout this notice.
- All references to the Albany, NY Packet End Office (PEO) switch are associated with CLLI code ALBYNYSSPS0 and will not be repeated throughout this notice.

## **Description of the Planned Network Change(s):**

The Verizon Mariaville, NY DMS100 remote switch, located at 7910 Mariaville Road, Mariaville, NY 12053, will be retired and removed from the network after all traffic served by this switch is migrated to the Mariaville, NY T1000 remote packet switch, located at 7910 Mariaville Road, Mariaville, NY 12053. All traffic to be migrated to the Mariaville, NY T1000 remote packet switch will be homed to the Albany, NY PEO switch. Traffic includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

#### **Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Albany, NY PEO switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Mariaville, NY DMS100 remote switch will be required to reposition the codes to the Albany, NY PEO switch.

All ASRs for the Albany, NY PEO switch must be received no later than March 15, 2024 to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Mariaville, NY DMS100 remote switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Mariaville, NY DMS100 remote switch (**on or after May 1, 2024**). This will serve to guide interconnect re-routes of traffic for the one (1) native code currently served by the Mariaville, NY DMS100 remote switch to reflect the Mariaville, NY T1000 remote packet switch and the Albany, NY PEO switch as the new home switch. All ASRs for the Albany, NY PE O switch must carry the project code of MARVNYMVRS0.
