

6929 N. Lakewood Avenue
Tulsa, OK 74117

SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)

September 23, 2024

Carrier: Verizon Pennsylvania LLC, 900 Race Street, Philadelphia, PA 19107

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
410 375 9777

Quadre Washington
Associate Director – Global Engineering and System Performance
Verizon Wireline Network Operations
320 Saint Paul Place
Baltimore, MD 21202
(410) 736-4261

Implementation Date: On or after **February 1, 2025**

Planned Network Change(s) will occur at the following locations in Pennsylvania:

Verizon Central Office	Address	CLLI
Collegeville PA 5ESS Switch	328 E. Main Street Collegeville, PA 19426	CGVLPACLDS0
Fort Washington PA CS2K Switch	1050 Virginia Drive Fort Washington, PA 19034	FTWSPAFWPS1

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Collegeville PA 5ESS switch are associated with CLI code CGVLPACLDS0 and will not be repeated throughout this notice.
- All references to the Fort Washington PA CS2K switch are associated with CLI code FTWSPAFWPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Collegeville PA 5ESS switch, located at 328 E. Main Street, Collegeville, PA 19426, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Fort Washington PA CS2K switch, located at 1050 Virginia Drive, Fort Washington, PA 19034. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Fort Washington PA CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Collegeville PA 5ESS switch will be required to reposition the codes to the Fort Washington PA CS2K switch.

All ASRs for the Fort Washington PA CS2K switch must be received no later than December 22, 2024, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Collegeville PA 5ESS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Collegeville PA 5ESS switch (**on or after February 1, 2025**). This will serve to guide interconnect re-routes of traffic for the six (6) native codes currently served by the Collegeville PA 5ESS switch to reflect the Fort Washington PA CS2K switch as the new home switch. All ASRs for the Fort Washington PA CS2K switch must carry the project code of **CGVLPACLDS0**.
