

6929 N. Lakewood Avenue  
Tulsa, OK 74117

**SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)**

June 27, 2025

**Carrier:** Verizon Pennsylvania LLC, 900 Race Street, Philadelphia, PA 19107

**Contact:** For additional information on these planned network changes, please contact:

Lisa Thompson  
Global Data Network Engineering  
Verizon Wireline Network Operations  
13100 Columbia Pike, Floor 5 Room 505  
Silver Spring, MD 20904  
(410) 375-9777

Michael Childs  
Associate Director  
Verizon Network Engineering  
5055 North Point Pkwy.  
Alpharetta, GA 30022  
(469) 497-4466

**Implementation Date:** On or after November 7, 2025

**Planned Network Change(s) will occur at the following locations in Pennsylvania:**

Verizon Central Office	Address	CLLI
Turtle Creek PA VTOA Gateway Switch	801 Penn Avenue Turtle Creek, PA 15145	TRCKPATCGT0
Pittsburgh PA Downtown 71T DMS 200 Tandem Switch	416 7th Avenue Pittsburgh, PA 15219	PITBPADT71T

**This notice may also be viewed at** <http://www.verizon.com/about/terms-conditions/network-disclosures>

**PLEASE NOTE:**

- All references to the Turtle Creek PA VTOA Gateway switch are associated with CLLI code TRCKPATCGT0 and will not be repeated throughout this notice.
- All references to the Pittsburgh PA Downtown 71T DMS 200 Tandem switch are associated with CLLI code PITBPADT71T and will not be repeated throughout this notice.

**Description of the Planned Network Change(s):**

The Verizon Turtle Creek PA VTOA Gateway switch, located at 801 Penn Avenue, Turtle Creek, PA 15145, will be retired and removed from the Verizon network after all traffic served by this switch is migrated to the Verizon Pittsburgh PA Downtown 71T DMS 200 Tandem switch, located at 416 7th Avenue, Pittsburgh, PA 15219. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Pittsburgh PA Downtown 71T DMS 200 Tandem switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Turtle Creek PA VTOA Gateway switch will be required to reposition the codes to the Pittsburgh PA Downtown 71T DMS 200 Tandem switch.

All ASRs for the Pittsburgh PA Downtown 71T DMS 200 Tandem switch must be received no later than September 1, 2025, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Turtle Creek PA VTOA Gateway switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to the decommissioning of the Turtle Creek PA VTOA Gateway switch (**on or after November 7, 2025**). This will serve to guide interconnect re-routes of traffic for the nine (9) native codes currently served by the Turtle Creek PA VTOA Gateway switch to reflect the Pittsburgh PA Downtown 71T DMS 200 Tandem switch as the new home switch.
