SHORT TERM NOTICE UNDER RULE 51.333(a) - AMENDED

This Notice amends Verizon New Jersey's April 19, 2024 Notice to a) change the traffic recipient office and b) extend the implementation date to accommodate this change.

October 17, 2025

Carrier: Verizon New Jersey Inc., One Verizon Way, Basking Ridge, NJ 07920

Contact: For additional information on these planned network changes, please contact:

Lisa M. Thompson
Global Engineering and System Performance
Verizon Wireline Network Operations
13100 Columbia Pike
Silver Spring, MD 20904
(410) 375-9777

Michael Childs
Associate Director
Verizon Network Engineering
5055 North Point Pkwy.
Alpharetta, GA 30022
(469) 497-4466

Implementation Date: On or after January 31, 2026.

Planned Network Change(s) will occur at the following location(s) in New Jersey:

Verizon Central Office	Address	CLLI
North Bergen NJ 5ESS Switch	7200 Bergenline Avenue North Bergen, NJ 07047	NBRGNJNBDS5
Rochelle Park NJ CS2K Switch	65 West Passaic Street Rochelle Park, NJ 07662	RCPKNJ01PS0

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the North Bergen NJ 5ESS switch are associated with CLLI code NBRGNJNBDS5 and will not be repeated throughout this notice.

- All references to the Rochelle Park NJ CS2K switch are associated with CLLI code **RCPKNJ01PS0** and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon North Bergen NJ 5ESS switch, located at 7200 Bergenline Avenue, North Bergen, NJ 07047, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Rochelle Park NJ CS2K switch, located at 65 West Passaic Street, Rochelle Park, NJ 07662. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Rochelle Park NJ CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the North Bergen NJ 5ESS switch will be required to reposition the codes to the Rochelle Park NJ CS2K switch.

All ASRs for the Rochelle Park NJ CS2K switch must be received no later than December 1, 2025, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the North Bergen NJ 5ESS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the North Bergen NJ 5ESS switch (**on or after January 31, 2026**). This will serve to guide interconnect re-routes of traffic for the eight (8) native codes currently served by the North Bergen NJ 5ESS switch to reflect the Rochelle Park NJ CS2K switch as the new home switch.
