

SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)

March 3, 2026

Carrier: Verizon Washington, DC Inc., 1300 I Street, Suite 500 East, Washington, DC 20005

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
(410) 375 9777

Michael Childs
Associate Director
Verizon Network Engineering
5055 North Point Pkwy.
Alpharetta, GA 30022
(469) 497-4466

Implementation Date: On or after **April 30, 2026**

Planned Network Change(s) Will Occur at the Following District of Columbia Location(s):

Verizon Central Office	Address	CLLI
Benning DC 5ESS Switch	580 23 rd Place NE Washington, DC 20002	WASHDCBNDS0
Southwest DC CS2K Switch	30 E Street SW Washington, DC 20024	WASHDCSWPS0

This notice may also be viewed at:

<http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Benning DC 5ESS switch are associated with CLI code WASHDCBNDS0 and will not be repeated throughout the notice.
- All references to the Southwest DC CS2K switch are associated with CLI code WASHDCSWPS0 and will not be repeated throughout the notice.

Description of the Planned Network Change(s):

The Verizon Benning DC 5ESS switch, located at 580 23rd Place NE, Washington, DC 20002, will be retired and removed from the Verizon network after all traffic served by this switch is migrated to the Verizon Southwest DC CS2K switch, located at 30 E Street SW, Washington, DC 20024. All traffic to be migrated to the Southwest DC CS2K switch includes, but is not limited to, inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

All carriers—including competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers—will need to provision new trunk groups to support direct end-office trunking to the Southwest DC CS2K switch or have existing trunk groups to that switch augmented.

All ASRs for the Southwest DC CS2K switch must be received no later than **April 1, 2026**, to provide sufficient time to migrate the traffic described above. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Benning DC 5ESS switch (**on or after April 30, 2026**). This will serve to guide interconnect re-routes of traffic for the four (4) native codes currently served by the Benning DC 5ESS switch to reflect the Southwest DC CS2K switch as the new home switch. All trunks to the Southwest DC CS2K switch must be in place prior to the decommissioning of the Benning DC 5ESS switch.
