Verizon Communications Inc.  
EIN: 23-2259884  
Date of Action: February 28, 2019  
Attachment to Internal Revenue Service Form 8937

The information contained herein is being provided pursuant to the requirements of Section 6045B of the Internal Revenue Code of 1986, as amended, and includes a general summary regarding the application of certain U.S. federal income tax laws and regulations relating to the effects of the Exchange (as defined below) on the tax basis of the new notes issued by Verizon Communications Inc. (“Verizon”) to holders of thirteen series of existing notes of Verizon and one series of existing notes of GTE LLC (“GTE”) in exchange therefor. The information contained herein does not constitute tax advice and does not purport to be complete or to describe the consequences that may apply to particular categories of holders. Verizon does not provide tax advice to holders of its debt obligations and the examples provided below are based on certain assumptions and are merely illustrative. Holders should consult their own tax advisers regarding the particular tax consequences of the Exchange to them, including the applicability and effect of all U.S. federal, state and local and foreign tax laws.

14. Describe the organizational action and, if applicable, the date of the action or the date against which shareholders’ ownership is measured for the action.

On February 28, 2019, holders of the thirteen series of existing notes of Verizon and one series of existing debentures of GTE listed below under the heading “Old Notes” (collectively, the “Old Notes”) exchanged their Old Notes for newly issued 4.016% notes due 2029 of Verizon (the “New Notes”) (the “Exchange”).

**Old Notes**

1. 3.450% notes due 2021  
2. 4.600% notes due 2021  
3. 3.500% notes due 2021  
4. 3.000% notes due 2021  
5. 1.750% notes due 2021  
6. 8.750% debentures due 2021  
7. Floating Rate Notes due 2022  
8. 2.946% notes due 2022  
9. 3.125% notes due 2022  
10. 2.450% notes due 2022  
11. 5.150% notes due 2023  
12. 4.150% notes due 2024  
13. 3.500% notes due 2024  
14. 3.376% notes due 2025

For more information, see the press release for the final results of the Exchange, available on the Verizon website:

15. Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis.

**Exchange of the Old Notes**

Based on applicable IRS guidance, Verizon treated the exchange of the Old Notes for New Notes as recapitalizations.

Recapitalizations generally do not result in the recognition of gain or loss, subject to certain exceptions. However, under the rules applicable to recapitalizations, a holder recognizes gain equal to the lesser of (i) the cash amount received (not including any accrued coupon payment) plus the fair market value of the “excess principal” amount received (collectively, “boot”), or (ii) the gain realized by the holder. The excess principal amount is the excess of the principal amount of New Notes received for a given series of Old Notes over the principal amount of such series of Old Notes surrendered for those New Notes. The gain realized by a holder is equal to the excess of (i) the issue price of the New Notes received in exchange for Old
Notes of a given series, plus any cash received (not including any accrued coupon payment) with respect to such series of Old Notes over (ii) the holder’s adjusted tax basis in such series of Old Notes that are surrendered in the exchange.

A holder’s initial tax basis in the portion of New Notes that are not treated as boot is the same as the holder’s tax basis in the Old Notes allocated thereto, increased by the amount of gain recognized by the holder in the exchange, if any, and decreased by the amount of boot that is received by the holder. The portion of the New Notes treated as boot has an initial tax basis in a holder’s hands equal to the fair market value of those New Notes.

16. Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates.

As described in line 15 above, a holder’s initial tax basis in New Notes received in a taxable exchange will equal the issue price of the New Notes on the date of the exchange. See line 19 regarding the issue price of the New Notes.

For New Notes received in an exchange treated as a recapitalization, as described in line 15 above, a holder’s initial tax basis in the portion of New Notes that is not treated as boot will be the same as the holder’s tax basis in the Old Notes allocated thereto, increased by the amount of gain recognized by the holder in the exchange, if any, and decreased by the amount of boot that is received by the holder. The portion of the New Notes treated as boot will have an initial tax basis in a holder’s hands equal to the fair market value of those New Notes.

The following simplified examples (which include fractional portions of New Notes for purposes of the examples) illustrate a hypothetical U.S. holder’s calculation of its adjusted tax basis in the New Notes received on the exchange date. Given our determination that the issue price of the New Notes is greater than the face amount of the New Notes (see line 19 below), the examples assume that the fair market value and the issue price of the New Notes is greater than their face amount. The examples below use simplified numbers and assumptions, are for illustrative purposes only, and do not purport to fully describe the actual facts or tax consequences that may apply to a particular holder. Holders should consult their own tax advisers regarding the particular tax consequences of the Exchange to them.

Example 1 (consideration is equal to or less than the principal amount of Old Notes):

- Assumptions: Investor A exchanged $1,000 principal amount of a given series of Old Notes for a total consideration of $1,000 or less, consisting of New Notes with a principal amount of $1,000 or less.

- In a one-for-one exchange, no excess principal is received and Investor A will not receive any boot. Investor A’s initial tax basis in the New Notes will be the same as his or her tax basis in the Old Notes. As a result, Investor A will not recognize gain or loss on the exchange.
Example 2 (total consideration is greater than the principal amount of Old Notes):

- Assumptions: Investor A exchanged $1,000 principal amount of a given series of Old Notes for a total consideration of $1,150, consisting of New Notes with a principal amount of $1,150. Investor A's basis in the Old Notes is $1,000.

- The excess principal amount of New Notes received is generally equal to the principal amount of the New Notes minus the principal amount of the Old Notes exchanged therefor. Accordingly, the excess principal amount for $1,150 principal amount of New Notes received is $150 ($1,150 - $1,000 = $150).

- The New Notes were issued at a fair market value ("FMV") and issue price of $1,000.50 per face amount of $1,000, or 100.050%. Thus, the issue price of New Notes received in exchange for $1,000 principal amount of Old Notes is $1,150.575 for New Notes with a principal amount of $1,150 (i.e., $1,150 x 100.050%).

Old Notes:
- Principal Amount (pa): $1,000
- Tax Basis (tb): $1,000

<table>
<thead>
<tr>
<th>Exchanged for:</th>
<th>Exchange Terms</th>
<th>Gain on the Exchange</th>
<th>New Notes Received</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Principal Amount (A)</td>
<td>Issue Price (B)</td>
<td>Boot(^2) = FMV of ((A) - (pa))</td>
</tr>
<tr>
<td>New Notes of $1,150</td>
<td>$1,150</td>
<td>$1,150.575</td>
<td>$150.075</td>
</tr>
</tbody>
</table>

\(^{1}\) See assumptions. Represents the issue price of the New Notes (100.050%) received in exchange for $1,000 principal amount of Old Notes.

\(^{2}\) See assumptions. Boot in this case means the FMV of the excess principal amount. The FMV of the excess principal amount of $150 is $150.075 ($150 x 100.050%).

17. List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based.

Section 1001; Section 368(a)(1)(E); Section 354; Section 356; Section 358; Treasury Regulation section 1.1273-2.
18. Can any resulting loss be recognized?

A holder that exchanges Old Notes for New Notes in an exchange treated as a recapitalization generally will not be permitted to recognize any loss on the exchange.

19. Provide any other information necessary to implement the adjustment, such as the reportable tax year.

The Exchange was consummated on February 28, 2019. For a holder whose taxable year is the calendar year, the reportable tax year is 2019.

Pursuant to U.S. Treasury Regulation section 1.1273-2(f)(9), Verizon has determined that, within the meaning of U.S. Treasury Regulation section 1.1273-2:

- The New Notes are “traded on an established market.”

- The issue price of the New Notes is $1,000.57 per $1,000 face amount of such New Notes, or 100.057%.

More information relating to these determinations is available on Verizon’s Investor Relations web page: http://www.verizon.com/about/investors/tax-information.
