Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

October 18, 2017

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Harvey Salzberg
Global Engineering and System Performance
Verizon Wireline Network Operations
140 West Street, 5th Floor
New York, NY 10007
212-519-4852

Quadre Washington
Manager – Global Engineering and System Performance
Verizon Wireline Network Operations
99 Shawan Rd & York Rd, 05 Floor Room 5w17a,
Cockeysville, MD 21030
410-856-2512

Implementation Date: On or after April 21, 2018

Planned Network Change(s) will occur at the following locations in New York:

| Verizon Central Office | Address | CLLI |
|-------------------------|---|--------------------|
| FREEPORT DMS-100 Switch | 120 Guy Lombardo Avenue, Nassau, NY 11520 | FRPTNYFPDS0 |
| WILLIAMSBURG C20 Switch | 55 Meserole Street, Brooklyn, NY 11206 | NYCKNYWMPS1 |

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Freeport NY DMS-100 switch are associated with CLI code FRPTNYFPDS0 and will not be repeated throughout this notice.
- All references to the Williamsburg NY C20 switch are associated with CLI code NYCKNYWMPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Freeport DMS-100 switch, located at 120 Guy Lombardo Avenue, Nassau, NY 11520, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Williamsburg C20 switch located at 55 Meserole Street, Brooklyn, NY 11206. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Williamsburg C20 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Freeport DMS-100 switch will be required to reposition the codes to the Williamsburg C20 switch.

All ASRs for the Williamsburg C20 switch must be received no later than March 12, 2018 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Freeport DMS-100 switch, prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted, prior to decommissioning of the Freeport DMS-100 switch (**on or after April 21, 2018**). This will serve to guide interconnect re-routes of traffic for the nine (9) native codes currently served by the Freeport DMS-100 switch to reflect the Williamsburg C20 switch as the new home switch. All ASRs for the Williamsburg C20 switch must carry the project code of **FRPTNYFPDS0**.
