John Dunne  
Senior Manager – Global Data Network Engineering  
Verizon Wireline Network Operations  
2147 Route 27  
Edison, NJ 08817  
732-593-4003

**Implementation Date:** On or after February 1, 2022

**Planned Network Change(s) will occur at the following locations in New Jersey:**

Verizon Central Office	Address	CLLI
Lakewood NJ VTOA Gateway Switch	216 Lexington Avenue Lakewood, NJ 08701	LKWDNJLKGTO
New Brunswick NJ 04T 5ESS Tandem Switch	18 Patterson Street New Brunswick, NJ 08901	NBWKNJNB04T

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Lakewood NJ VTOA Gateway switch are associated with CLI code LKWDNJLKGTO and will not be repeated throughout this notice.

- All references to the New Brunswick NJ 04T 5ESS tandem switch are associated with CLLI code NBWKNJNB04T and will not be repeated throughout this notice.

**Description of the Planned Network Change(s):**

The Verizon Lakewood NJ VTOA Gateway switch, located at 216 Lexington Avenue, Lakewood, NJ 08701, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon New Brunswick NJ 04T 5ESS tandem switch, located at 18 Patterson Street, New Brunswick, NJ 08901. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers and paging carriers will need to secure new trunk groups built to the New Brunswick NJ 04T 5ESS switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Lakewood NJ VTOA Gateway switch will be required to reposition the codes to the New Brunswick NJ 04T 5ESS switch.

All ASRs for the New Brunswick NJ 04T 5ESS tandem switch must be received no later than December 21, 2021 in order to provide sufficient time to migrate the traffic described above. These direct trunk interconnections will support traffic migration for the Lakewood NJ VTOA Gateway switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Lakewood NJ VTOA Gateway switch (**on or after February 1, 2022**). This will serve to guide interconnect re-routes of traffic for the ten (10) end offices currently served by the Lakewood NJ VTOA Gateway switch to reflect the New Brunswick NJ 04T 5ESS tandem switch as the new home switch. All ASRs for the New Brunswick NJ 04T 5ESS tandem switch must carry the project code of **NBWKNJNB04T**.
