This notice may also be viewed at http://www.verizon.com/about/terms-conditions/network-disclosures

Description of the Planned Network Change(s):
The Verizon Hempstead DMS100 switch (HMPSNYHSDS0), located at 199 Fulton Ave., Hempstead, NY 11550, will be decommissioned and replaced by the Verizon Deer Park CS2K switch (DRPKNYDPPS0) located at 85 West 2nd St., Deer Park, NY. After all traffic served by the Hempstead DMS100 switch (HMPSNYHSDS0) is migrated to the Deer Park CS2K switch (DRPKNYDPPS0), the Hempstead DMS100 switch (HMPSNYHSDS0) will be decommissioned (retired). Network trunks will be interconnected through the Deer Park CS2K switch.
(DRPKNYDPPS0). Once these changes are completed, the Deer Park CS2K switch (DRPKNYDPPS0) for all seventeen (17) NPA NXX codes that are currently native to the Hempstead DMS100 switch (HMPSNYHSDS0) will be reflected in the LERG. Traffic to be migrated to the Deer Park CS2K switch (DRPKNYDPPS0) includes, but is not limited to, Inter-LATA access traffic (including Feature Group B and D traffic), Intra-LATA traffic, and local traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

All carriers, including competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), and wireless carriers should submit direct end office trunk (DEOT) orders no later than September 5, 2017. These DEOT interconnections will support traffic migration for the Hempstead DMS100 switch (HMPSNYHSDS0) prior to its eventual decommissioning. Prior to decommissioning of the Hempstead DMS100 switch (HMPSNYHSDS0), **on or after November 1, 2017**, LERG change effective dates will be posted. This will serve to guide interconnect re-routes of traffic for the seventeen (17) native codes currently served by the Hempstead DMS100 switch (HMPSNYHSDS0) to reflect the Deer Park CS2K switch (DRPKNYDPPS0) as the new home switch. All ASRs for the Deer Park CS2K switch (DRPKNYDPPS0) for trunk interconnection must include the project code of HMPSNYHSDS0.
