

6929 N. Lakewood Avenue
Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

May 7, 2018

Carrier: Verizon Pennsylvania LLC, 900 Race Street, Philadelphia, PA 19107

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
443-862-0212

John Dunne
Senior Manager – Global Data Network Engineering
Verizon Wireline Network Operations
2147 Route 27
Edison, PA 08817
732-593-4003

Implementation Date: On or after **November 12, 2018**

Planned Network Change(s) will occur at the following locations in Pennsylvania:

Verizon Central Office	Address	CLLI
Turtle Creek EWSD Switch	801 Penn Ave, Turtle Creek PA 15145	TRCKPATCDS0
Pittsburgh CS2K Switch	530 N. Neville PA, Pittsburgh PA 15213	PITBPAOKPS0

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Turtle Creek PA EWSD switch are associated with CLLI code TRCKPATCDS0 and will not be repeated throughout this notice.
- All references to the Pittsburgh PA CS2K switch are associated with CLLI code PITBPAOKPS0 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Turtle Creek EWSD switch located at 801 Penn Ave., Turtle Creek, PA 15145, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Pittsburgh CS2K switch located at 530 N. Neville St., Pittsburgh, PA 15213. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers, will need to secure new trunk groups built to the Pittsburgh CS2K switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Turtle Creek switch will be required to reposition the codes to the Pittsburgh CS2K switch.

All ASRs for the Pittsburgh CS2K switch must be received no later than October 14, 2018 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Turtle Creek EWSD switch, prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Turtle Creek EWSD switch (**on or after November 12, 2018**). This will serve to guide interconnect re-routes of traffic for the five (5) native codes currently served by the Turtle Creek EWSD switch to reflect the Pittsburgh CS2K switch as the new home switch. All ASRs for the Pittsburgh CS2K switch must carry the project code of **TRCKPATCRP1**.
