PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329 (A) – Amended

NOTE: The original notice for this project was issued on September 5, 2014, under Rule 51.329(A). This AMENDED NOTICE is being issued to provide a correction to the address of the Broad Street switch.

Broad Street Switch address

September 16, 2014

The Verizon Broad Street 5ESS switch (NYCMNYBSDS2), is located at 104 Broad St., Manhattan, NY 10004.

Verizon will post a copy of this notice on its website.

Carrier:

Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Description of the Network Change(s); Location; Impact(s):

The Verizon Broad Street 5ESS switch (NYCMNYBSDS2), located at 104 Broad St, Manhattan, NY 10004, will be decommissioned and replaced by the Verizon Pearl Street CS2K switch (NYCMNYPSPS0), located at 375 Pearl Street, Manhattan, New York, NY 10038. After all traffic served by the Broad Street 5ESS switch (NYCMNYBSDS2) is migrated to the Pearl Street CS2K switch (NYCMNYPSPS0), the Broad Street 5ESS switch (NYCMNYBSDS2) will be decommissioned (retired). Network trunks will be

interconnected through the Pearl Street CS2K switch (NYCMNYPSPS0). Once these changes are completed, the Pearl Street CS2K switch (NYCMNYPSPS0) will be home to all 22 (twenty-two) NPA NXX codes that are currently native to the Broad Street 5ESS switch (NYCMNYBDS2), which will be reflected in the LERG. Traffic to be migrated to the Pearl Street CS2K switch (NYCMNYPSPS0) includes, but is not limited to, Inter-LATA access traffic (including Feature Group B and D traffic), Intra-LATA traffic, and local traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

All ASRs for the Pearl Street CS2K switch (NYCMNYPSPS0) for trunk interconnection must include the project code of **NYCMNYBDS2**. All carriers (e.g., CLEC, Wireless or IEC) should submit direct end office trunk (DEOT) orders no later than January 5, 2015. These DEOT interconnections will support traffic migration for the Broad Street 5ESS switch (NYCMNYBDS2), prior to its eventual decommissioning. Prior to decommissioning of the Broad Street 5ESS switch (NYCMNYBDS2) (on or after March 7, 2015), LERG change effective dates will be posted. This will serve to guide interconnect re-routes of traffic for the 22 (twenty-two) native codes currently served by the Broad Street 5ESS switch (NYCMNYBDS2) to reflect the Pearl Street CS2K switch (NYCMNYPSPS0) as the new home switch.
