Short Term Public Notice of Network Change under FCC Rule 51.333(a)

**Replacing Copper Feeder Facilities with Fiber Optic Cable
 and Digital Loop Carrier Systems in West Virginia**

September 10, 2009

Carrier: Verizon West Virginia Inc., f/k/a Bell Atlantic - West Virginia, Inc. ("Verizon"), 1500 MacCorkle Avenue, SE, Charleston, WV 25396

Contact: For additional information on these planned network changes, please contact:

Margaret H. Detch
 Manager – Wholesale Regulatory Advocacy
 Verizon Partner Solutions
 385 Myles Standish Blvd., Rm C-040
 Taunton, MA 02780
 508-884-1445

Planned Network Changes Will Occur at the Following Locations:

Location	Verizon Central Office	Verizon Remote Terminal	Implementation Date (on or after)
Charleston, WV	CHTNWVLE	CHTNWVU9641	January 1, 2010

Description of the Planned Network Changes: Verizon will replace copper (metallic) feeder facilities with fiber optic cable and Digital Loop Carrier ("DLC") system(s).

Description of Reasonably Foreseeable Impact of the Planned Changes: After the planned network changes are implemented, loops comprised entirely of copper will not be available between the above-referenced Verizon Central Office and customer premises served by the respective Verizon Remote Terminal. Copper (metallic) sub-loop facilities between the above-referenced Verizon Remote Terminal and customer premises in the affected area will remain in place (the availability of such sub-loop facilities, of course, will continue to be subject to various factors such as the availability of space for remote terminal collocation, etc.).

The following loop types will be transferred to new DLC systems:

- 2-Wire Analog Voice Grade Loop (Analog 2W)
- 4-Wire analog Voice Grade Loop (Analog 4W)
- 2-Wire ISDN Digital Grade Loop (BRI ISDN)
- 4-Wire 56 kbps Loop
- DS1 Loop

The following loop types will no longer be available from the above-referenced Verizon Central Office to customer premises served by the respective Verizon Remote Terminal:

- 2-Wire ADSL - Compatible Loop (ADSL 2W)
- 2-Wire HDSL - Compatible Loop (HDSL 2W)
- 4-Wire HDSL - Compatible Loop (HDSL 4W)
- 2-Wire IDSL - Compatible Metallic Loop
- 2-Wire SDSL - Compatible Loop
- 2-Wire Digital Designed Metallic Loop

Any loops that are in service on the Implementation Date, but that no longer will be available as a result of this network change, will be disconnected by Verizon on or after the Implementation Date.
