**Contact:** For additional information on these planned network changes, please contact:

Sidney Thomas Sr.  
Verizon Metro Enterprise Network Product Technology and Strategy  
(301) 282-0153

**Implementation Date:** March 1, 2014 (or later)

**Planned Network Change(s) Will Occur at the Following Location(s):**

Verizon Operating Telephone Company Service Areas nationwide.

**Description of the Planned Network Change(s):**

Verizon will be migrating customer Ethernet User Network Interface types 10/100 Megabits and Gigabit/10 Gigabit connections from the existing Legacy Ethernet switch platform to Verizon's next-generation Ethernet switch platform.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

The circuit migrations will be coordinated with customers and will be performed during scheduled maintenance periods. Customers will be notified in advance with respect to the migration of their particular circuits. There will be a brief service interruption while the service is migrated to the new device during the scheduled maintenance window. Customers may need to make certain configuration changes to their equipment. Further information will be provided by Verizon to customers in conjunction with the migration of their specific circuits.
