

Verizon  
600 Hidden Ridge  
Irving, TX 75015-2092

**PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.333(A)**

May 4, 2012

**Carrier:** Verizon Washington, DC, Inc., 2055 L Street, NW, 5th Floor, Washington, DC 20036

**Contact:** For additional information on these planned network changes, please contact:

Quadre Washington - Manager  
Switch/Trunk/VM Verizon Washington, DC  
99 Shawan Road, 05 Floor Room 5w17a  
Cockeysville, MD USA 21030  
Phone 410-856-2512

**Implementation Date:** No earlier than September 4, 2012

**Planned Network Change(s) Will Occur at the Following Washington, DC Location(s):**

<u>Location</u>	<u>Verizon Central Office</u>
Washington, DC	WASHDCDKDS0

**Description of the Planned Network Change(s):**

The Verizon Dirksen 5ESS end office switch (WASHDCDKDS0) will be retired and removed after all traffic served by this switch is migrated to the alternative switch described below. Traffic currently coming to Dirksen will be migrated to a Call Server 2100 (location and CLLI information available upon request). All traffic will be migrated to the Call Server, including Inter-LATA (ACCESS/FG-B-D/CLEC IXC), Wireless, and Paging trunks.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

CLEC IXC, IEC, wireless and paging carriers will need to secure new trunk groups built to the Call Server 2100 or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Dirksen switch will be required to reposition the codes to the CS2100 device (location and CLLI available to carriers upon request).

All ASRs for the CS2100 device must be received no later than August 1, 2012 in order to provide sufficient time to migrate the traffic described above. All traffic must be moved by October 3, 2012. All ASRs for the CS2100 device must carry a specific project code (available to carriers upon request).
