David Froneberger
Sr. Engineer - Integrated Planning & Assurance E9-1-1

Verizon
600 Hidden Ridge Dr. Irving TX

Implementation Date: March 14, 2011 (or later)

Planned Network Change (s) Will Occur at the following location (s):

Location

Verizon Operating Telephone Company Service Areas

Description of the Planned Network Change(s):

Verizon will be converting from its current Automatic Location Information (ALI) database platform to one that will be hosted by 3rd-party vendor, Intrado. All traffic currently destined for Verizon's ALI database will be redirected to the Intrado-provided platform.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

All external carrier links that currently terminate within Verizon's data centers (e.g. for ALI steering, etc) will retain a presence within said data centers. The traffic from these links will be redirected to the hosted databases provided by Intrado. The delivery method for E911 updates will also change.
