

Verizon
600 Hidden Ridge
Irving, TX 75015-2092

SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(A)

January 14, 2011

Carrier: GTE Southwest Incorporated (d/b/a Verizon Southwest)("Verizon"), 600 Hidden Ridge, Irving, Texas 75038

Contact: For additional information on these planned network changes, please contact:

Mark Moroney
Manager, Texas Region Network Engineering & Planning
2090 McGee Lane, Lewisville, TX 75077
972.318.0659 office
469.667.6692 cell
972.317.9688 fax

Implementation Date: On or after February 11, 2011

Planned Network Change(s) Will Occur at the Bartonville, Texas central office:

<u>Location</u>	<u>Verizon Central Office (or Other) CLLI Code</u>
2070 E. Hickory Hill Road Argyle, TX 76226	BNVLTXXARS1

Description of the Planned Network Change(s):

Verizon intends to retire the Bartonville remote digital multiplex system (DMS) end office switch (BNVLTXXARS1) located at 2070 E. Hickory Hill Road, Argyle, Texas 76226. Verizon has no customers (retail or wholesale) served by this remote switch. After the retirement of the Bartonville remote switch, all customers located in the Bartonville wire center that request telecommunications services that require switching will be served by the host Verizon DMS switch (DNTNTXXADS1) located at 309 W. Oak St., Denton, Texas 76201.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

None. Currently, no carriers (including CLECs, IXCs, wireless and paging carriers) directly connect to the remote DMS switch in Bartonville. Instead, carriers currently connect to customers previously served on the Bartonville remote by way of the Denton host. Carriers will not need to secure new trunk groups to the Denton host or augment existing trunk groups to that host switch as a result of the elimination of the Bartonville remote switch and the transfer of customers to the Denton switch.
