

Verizon
600 Hidden Ridge
Irving, TX 75015-2092

Public Notice of Network Change under FCC Rule 51.329(a)

October 1, 2009

Carriers:

Verizon South Inc., 201 N. Franklin Street, One Tampa City Center, Tampa, FL 33602
Verizon Northwest Inc., 1800 41st Street, Everett, WA 98201
Verizon North Inc., 8001 West Jefferson Boulevard, Ft. Wayne, IN 46804
Verizon North Inc. d/b/a Verizon North Systems, 8001 West Jefferson Boulevard, Ft. Wayne, IN 46804
Verizon California Inc., 112 Lakeview Canyon Road, Thousand Oaks, CA 91362
Contel of the South, Inc., 600 Hidden Ridge, Irving, TX 75038

Contact: For additional information on these planned network changes, please contact:

Patrick McCarthy
Manager — Wholesale Product Line Management
Verizon Partner Solutions
125 High St. 2nd Flr Oliver Towers
Boston, MA 02110
617 743-6859

Implementation Date: No earlier than April 2, 2010

Description of the Planned Network Changes: Signal Transfer Points (STPs) listed in Table 1.1 will be rearranged from the existing Verizon SS7 network to a separate SS7 network. SS7 transport, including transport provided by Verizon and third party suppliers (the latter hereinafter referred to as OffNet services), along with Calling Name (CNAM), Line Information Database (LIDB) and Toll Free (TF) databases in Fort Wayne and Garrett, IN will transition to the new SS7 network. The Durham, Triangle, Myrtle Beach, and Pamplico STP's will be rehomed to the Fort Wayne and Garrett, IN Regional STP Gateway for SS7 Transport and OffNet services. Verizon STPs not listed in Table 1.1 will remain in the existing Verizon SS7 network.

Description of Reasonably Foreseeable Impact of the Planned Changes

SS7 service providers may need to alter their SS7 transport and OffNet services arrangements in order to access or continue serving the customers in AZ, ID, IL, IN, MI, NV, NC, OH, OR, SC, WA, WI and a limited number of exchanges in CA, which border AZ, NV, and OR. The new SS7 network will have it's own CNAM, LIDB, and TF databases located in Fort Wayne and Garret, IN.

All current existing Verizon SS7 network CNAM, LIDB, and TF information will be made available by Verizon from the Santa Monica and Long Beach, CA databases. Verizon will send Calling Name Access Routing Guide (CNARG) and LIDB Access Routing Guide (LARG) updates to Telcordia.

All SS7 service providers currently using the Manassas/Occoquan Regional STP Gateway for SS7 transport and OffNet services to the Durham, Triangle, Myrtle Beach, and/or Pamlico local STPs, will need to make new signaling arrangements to use the Fort Wayne/Garrett, IN Regional STP Gateway.

Planned Network Changes Will Occur at the Following STP Locations

Table 1.1 STP Pairs

<u>LATA</u>	<u>Location</u>	<u>ST</u>	<u>CLLI Code</u>	<u>Vendor</u>	<u>Point Code</u>	<u>Address</u>
