Bob Citro
Senior Consultant- Product Marketing Verizon Global Wholesale
140 West St. Room 2407, New York, NY 10007
212-321-8409

Implementation Date: March 15, 2013 (or later)

Planned Network Change(s) Will Occur at the Following Location(s):

Location

Verizon Operating Telephone Company Service Areas in the District of Columbia, Delaware, Massachusetts, Maryland, New York, New Jersey, Pennsylvania, and Virginia.

Description of the Planned Network Change(s):

Verizon will retire the Multi-Services Platform (MSP) currently providing Ultra Call Forward service and move customers to an alternative Ultra Forward service provided by the Advanced Intelligent Network (AIN) platform. Customers will be required to dial a different Toll Free number to access the service to activate and deactivate their Ultra Forward service.

These changes will take place no earlier than the March 15, 2013.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Customers migrated to the new Ultra Forward AIN service will be required to dial a different Toll Free number to access the service and they will need to deactivate their old Ultra Forward and initialize their new Ultra Forward service. The first time initialization of the new Ultra Forward service will require that the customer call the new Toll Free number from the line with Ultra Forward service assigned. Information regarding use of the new Ultra Forward AIN service will be provided to customers closer to the migration date.

For Wholesale customers, Verizon will communicate additional specifics to CLECs using the Verizon Industry Letters notification process to reiterate the information provided above, to detail impacts on ordering processes, and to provide additional details (e.g. new 800 numbers, etc.) to assist CLECs in communicating with their end users.
