Public Notice of Network Change under FCC Rule 51.325(a)

Destruction of Facilities Resulting from Wildfires in Malibu, California

January 8, 2008

In accordance with Section 51.325(a) of the Commission's rules, Verizon hereby provides public notice regarding the destruction of certain copper facilities caused by the Corral Canyon wildfire (the "Wildfire") in Malibu, California on November 23, 2007. The Wildfire destroyed 172 copper lines that originated from Verizon's Malibu central office (MALBCAXG) and routed through Verizon's cross-connect box (MALBCABQ). Access to these lines is no longer available. As a result of this event, Verizon immediately activated its Region Preparedness Plan (disaster recovery plan) for California and opened its Regional Control Center on November 24, 2007 to manage restoration efforts related to the Wildfire.¹

Verizon will contact any carriers affected by this network change. Additional information is provided below.

Carrier: Verizon California Inc., 112 Lakeview Canyon Road, Thousand Oaks, CA 91362

Contact: For additional information on this network change, please contact:

Margaret H. Detch
Manager – Wholesale Regulatory Advocacy
Verizon Partner Solutions
385 Myles Standish Blvd., Rm C-040
Taunton, MA 02780
508-884-1445

Description of Reasonably Foreseeable Impact of the Change: As a result of the Wildfire, access to the above-referenced lines will no longer be available.

¹ In the event of disasters that prompt the triggering of a disaster recovery plan, the Commission granted Verizon a limited waiver of the advanced notification and waiting period requirements associated with its network disclosure rules (47 C.F.R. §§ 51.325-335), permitting affected carriers to concentrate on restoration efforts and execution of disaster recovery plans. See, *In the Matter of Petition of BellSouth Corporation for Special Temporary Authority and Waiver to Support Disaster Planning and Response*, Order, 21 FCC Rcd 6518, ¶ 19 (2006).
