

153 Wire Centers in Pennsylvania Reclassified as Competitive

On March 4, 2015, the PA Public Utility Commission issued an Order that reclassified portions of Verizon's operating area in Pennsylvania as "Competitive." Most of Verizon's services throughout the state, including bundled packages, features and toll, were reclassified competitive several years ago and Verizon can change their rates without Commission approval. The recent Order gives Verizon the ability to change its prices for basic standalone dial tone service in these areas without having to seek approval by the Commission. The Order also means that if you are a customer in one of the areas, beginning July 1, 2015, any services you received under Verizon's state tariffs will be provided pursuant to the Verizon Product Guide, available to you at <http://www.verizon.com/tariffs/productguide>.

Only certain areas in the following counties are included in the Order: Allegheny, Beaver, Bucks, Butler, Chester, Cumberland, Dauphin, Delaware, Erie, Lackawanna, Lehigh, Luzerne, Montgomery, Northampton, Philadelphia, Washington, Westmoreland and York. If you live in one of these counties, and would like to find out more about this decision and if your area is included in the PUC's Order, please review the following information and tables:

Frequently Asked Questions

What does it mean that “the Pennsylvania Public Utility Commission declared all protected or noncompetitive retail services offered by Verizon Pennsylvania LLC and Verizon North LLC (Verizon) as competitive for certain wire centers?”

It means that Verizon will be treated more like other communications companies, with a reduced level of PUC regulation in certain areas. For example, Verizon will no longer be required to file detailed retail price and service information (called “tariffs”) with the PUC for some areas within the Philadelphia, Erie, Scranton, Harrisburg, Pittsburgh, Allentown and York regions.

If you are in one of the competitive wire centers, beginning July 1, 2015 any services you received under Verizon's state tariffs will be provided under the Verizon Product Guide, located at: <http://www.verizon.com/tariffs/productguide>

153 Wire Centers in Pennsylvania Reclassified as Competitive

How do I know if I fall into one of these areas?

If you live in one of the following counties, you may be included in the reclassification: Allegheny, Beaver, Bucks, Butler, Chester, Cumberland, Dauphin, Delaware, Erie, Lackawanna, Lehigh, Luzerne, Montgomery, Northampton, Philadelphia, Washington, Westmoreland and York. If you live in another county, your service has not been reclassified as competitive.

Only portions of these counties are included in the reclassification. If you live in one of these counties, please review the list of the area codes and exchanges to determine if your exchange is included.

When does this change take place?

Beginning July 1, 2015, if you are a Verizon customer in one of the affected areas, and you receive basic stand-alone local exchange service. Your local service will be provided according to the Verizon Product Guide, available to you at <http://www.verizon.com/tariffs/productguide>. Click Pennsylvania on the map and then select the "X" to the right of "Verizon Telephone Companies" under "Product Guides." This change does not affect services already provided under the Product Guide or other contracts.

Will the price of my service change?

Most of Verizon's services throughout the state, including bundled packages, features and toll, were reclassified competitive several years ago and Verizon can change their rates without Commission approval. The recent order gives Verizon the ability to change its prices for basic standalone dial tone service in these areas without having to seek approval by the Commission. At this time, Verizon does not have any plans to change existing prices for these services. If Verizon determines to change these prices in the future, you will be notified in advance.

The removal of the requirement to file these product details will not change the prices or services you currently receive.

Does this change anything if I have questions or problems with my service?

No. As always, if you have any questions or problems with your Verizon service, please call us at 1-800-VERIZON (1-800-837-4966).

Why did Verizon ask for this change?

With the proliferation of competition from cable companies, wireless services, and Voice over Internet Protocol services, today's communication market is drastically different from 30 years ago. The company simply sought to be treated more like these other communications providers. The Pennsylvania PUC agreed and granted the reclassification in these areas.

Is Verizon going to stop offering basic local service in these areas?

No, Verizon will continue to offer basic local service; that service is simply being reclassified as a competitive service.

Can I still get Lifeline services if I live in one of these areas?

Yes.

153 Wire Centers in Pennsylvania Reclassified as Competitive

I live in one of the affected areas. Which services are impacted?

Basic standalone voice service, like dial tone line and local usage, are impacted. Bundled packages and all other services such as toll services and features are already classified as competitive and are not affected by the PUC's order.

I switched my service from another carrier to Verizon and ported my number. It is not on the list of NXXs. How do I know if I am affected?

The following NXX list is a guide; it is your physical location that determines whether you are impacted. Ultimately, the PUC's Order reclassified the wire centers. If you live in one of the 153 wire centers, and subscribe to stand-alone, basic local exchange service, then your service has been reclassified as competitive. Review the list and map provided on this page, or call 1-800-VERIZON and a service representative will be able to provide assistance.
