PUBLIC NOTICE OF COPPER RETIREMENT UNDER RULE 51.333
Copper Retirement ID No. 2026-03-B-NC

August 7, 2026

Carrier: Verizon South Inc., 22001 Loudon County Parkway, Ashburn, VA 20147

Contact: For additional information on these planned network changes, please contact:

Kevin Organ
Director, Network Transformation
35 4th Avenue
Bay Shore, NY 11706
(631) 206-7106

Implementation Date: On or after November 6, 2026

Planned Network Change(s) will occur at all remaining locations in the following wire center areas in North Carolina:

Wire Center	Address	CLLI
Knotts Island	.25 Mi. S/o Brumley Lane on State Highway 615 Knotts Island, NC 27950	KNISNCXA

Description of the Planned Network Change(s):

Verizon South Inc. ("Verizon"), intends to retire the copper facilities at all remaining locations in the one (1) wire center listed above. The copper facilities being retired support services that depend on obsolete time-division multiplexing and also use SS7 signaling. Verizon will discontinue services offered over these copper facilities pursuant to FCC rules before retiring the facilities. Locations affected by this copper retirement will have access to services including fixed or mobile wireless service from multiple providers including Verizon Wireless, or wireline options, including VoIP service provided by Verizon or by a cable company.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

After the retirement of the copper facilities, interconnecting carriers will need to make alternative arrangements for services formerly obtained via these copper facilities. Verizon offers multiple

modern products and services available to replace services formerly provided over these copper facilities. To help ensure an orderly transition, Verizon may require customers and interconnecting entities to migrate services off of copper facilities well before the copper retirement implementation date.
