

# Installation Instructions > Mounting Bracket

## Bracket and Accessories

Bracket x1

Anchor x4

Screw x4

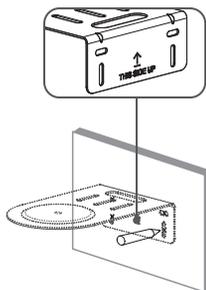

Screw x1

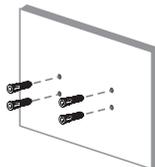

Cable Clip x2

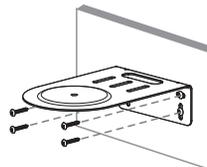

## Wall Mount Assembly

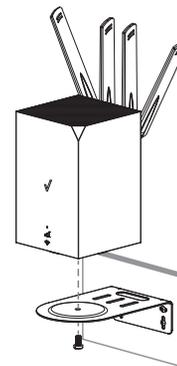

1. By following the "THIS SIDE UP" direction, align the bracket with the wall. Draw the screw installation points.

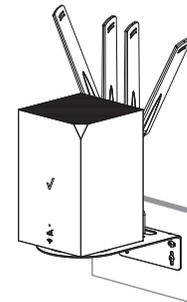

2. Drill the holes and place the four (4) anchors.

3. Align the bracket with the wall anchors and secure four (4) screws through the bracket holes and into the wall anchors.

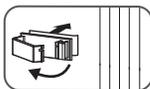

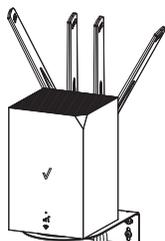

4. Mount the device on the bracket and secure it with the supplied screw.

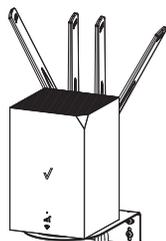

5. Ensure the device is firmly secured to the bracket.

## Cable Clip Assembly

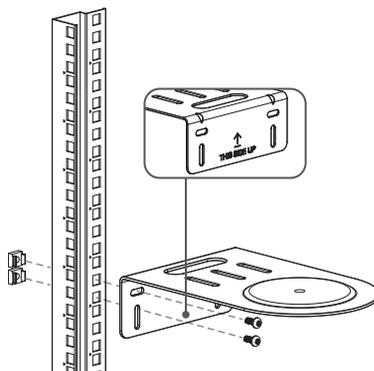

1. Open the cable clip and secure the cables.

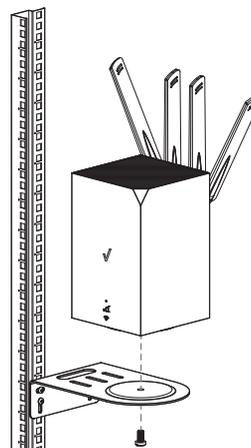

2. Remove the liner and attach the cable clip to the designated location.

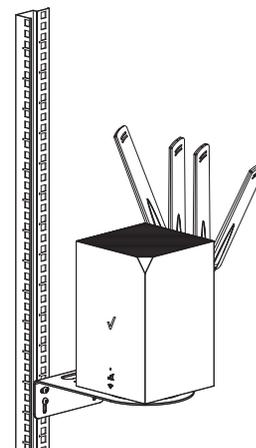

## Rack Mount Assembly

1. By following the "THIS SIDE UP" direction, secure the bracket to the rack with mounting screws (not supplied).

2. Mount the device on the bracket and secure it with the supplied screw.

3. Ensure the device is firmly secured to the bracket.
