

France Public Directory Listing Management

Dear valued customer,

Several providers offer directory enquiry services in France. In case you want to be included in such a directory, we advise to directly contact the relevant directory enquiry service provider, for instance the Yellow Pages (Pages Jaunes, <https://www.pagesjaunes.fr/>) which are the most relevant for business customers in France.

Verizon is not offering the management of the publication of customer data in phone books, universal directory listing, enquiry and other similar information services in France.

Best Regards,

Verizon France
