

Dedicated E-Line Metro/Corridor VzON Quote Job Aid

Dedicated virtual circuits, with security characteristics similar to traditional private line services, to provide point-to-point or point-to-multipoint connectivity

Things to Know

- The existing contract ID field is being renamed to Pricing ID. This field indicates whether the pricing is standard contractual or promotional. It is not specific to promotions. When a promotion drives the pricing, it will contain the value of the Promo, but it does not just indicate pricing related to promotions.
- An additional value of "New" will be available in the Pricing ID field. Selecting the value of "New" enables a quote to be created without an existing contract. Existing contract IDs will continue to appear as selections in the Pricing ID drop down as applicable.

Getting Started

There are **three** ways to create a Quote

Option 1: From **Shop**

Option 2: From **Quick Links**

Option 3: From **Quote Worklist**
