

Wavelength Services Solution+ Quote Job Aid

Formerly known as Metro/National Wave (Optimized)
Delivers private data over a fully managed point to point circuit on an advanced optical network

Things to Know

- The existing contract ID field was renamed to Pricing ID. This field indicates whether the pricing is standard contractual or promotional. It is not specific to promotions. When a promotion drives the pricing, it will contain the value of the Promo, but it does not just indicate pricing related to promotions.
- An additional value of "New" is available in the Pricing ID field. Selecting the value of "New" enables a quote to be created without an existing contract. Existing contract IDs will continue to appear as selections in the Pricing ID drop down as applicable.

Getting Started

There are **three** ways to create a Quote

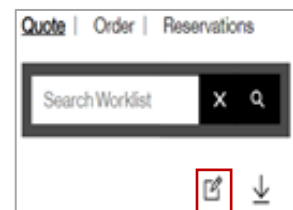

Option 1: From **Shop**

Option 2: From **Quick Links**

Quoting Tips

1. Wave quotes are valid for 180 days from the creation date
2. A quote must be submitted to order for it to be converted to an order
3. Quotes in Submitted, Pricing Requested or Pricing Review status cannot be edited
4. In order to generate an additional quote, add a new row to the group and populate the requested information
5. Co-location addresses will default to Off Net pricing (Co-location override must be selected via Additional Features during the quote journey)
6. From the Quote Summary page, the group quote information can be downloaded into a csv file
7. You can manually add up to 250 locations
