

Verizon Partner Solutions Exchange

September 2025 Release

The upcoming release upgrade for the Verizon Partner Solutions Exchange portal is **committed** for **Sunday, September 21, 2025**, and will feature the following enhancements:

Products

Wavelength Solutions

- Enable 400G Quoting & Ordering (LAN-PHY selection only)
- Dynamically drive Product Offering selections based on minimal user input
- Display KMZ Maps option on the Quote Configuration screen
- Offer Advanced Routing for Wavelength Services Solutions +
 - 1+1 IXC Protection
 - Mandatory Route Diversity
 - Local Access Route Diversity

FTTI

- Choose a due date on FTTI disconnect orders
- Allow standalone speed change without product reconfiguration

Capabilities

Network Management: Circuit Decom Inventory

What is it: Display circuits impacted by decommissioning activity purchased through Verizon Business and former XO entities.

What we've added:

- Present recommended product replacement options with easy quote to order capabilities

Delivery Worklist

- Improve the accuracy of VzB order status comments and display them in reverse chronological order, starting with the most recent

Repair

Display ETMS repair ticket attachments under

- Ticket Detail Summary
 - Select the Additional Details section
 - See Attachments

System Downtime - Friday, September 19th at 8pm to Sunday, September 21st at 12am (EDT Time)
