# FTTI

- Allowing **standalone speed change** without product reconfiguration (i.e. no Static/Dynamic selection)

The screenshot shows the 'Change Service' interface. At the top, it displays the Circuit ID Number (83KQXB63517L.VZNJ), Service Location (123 Sunshine Ct), End Customer Name (ABC Company), and Product Offering (FTTI). Below this, there are three dropdown menus: Order Name, Admin, and Speed. The Speed dropdown is currently open, showing a list of speed options: 25 Mbps, 50 Mbps, 75 Mbps, and +More. An arrow points to the 25 Mbps option. The Contract Terms section shows 'Selected: Month To Month' and '2 Years' buttons. A 'Disconnect' button is at the bottom.

- Allowing **future due date** selection on FTTI disconnect orders

The screenshot shows the 'Calendar' interface. On the left, it displays 'Today 13 Sunday'. On the right, it shows the 'Requested Due Date' calendar for August 2025. The calendar grid shows dates from 1 to 31. An arrow points to the 9th of August.

# Capabilities

- **Network Management: Circuit Decom Inventory**
- **Delivery Worklist**
- **Repair**

# Network Management: Circuit Decom Inventory

**What is it:** Display circuits impacted by decommissioning activity purchased through Verizon Business and former XO entities.

**What we've added:**

- A new column to display the recommended **product replacement options** with easy quote to order capabilities
