*Current coverage details and additional plan information can be found at www.verizonwireless.com. Usage outside of the United States will be billed at the international travel feature rate, if applicable, or pay as you go pricing, which can be found at www.verizonwireless.com/international. Lines activating on these plans must be on 4G HD voice-capable smartphones, except that existing lines on 3G smartphones may change to these plans while 3G service is available. Data Overage Rates, Per Message Rate, and Per Minute Rate apply. This Plan is not available when the Agreement is in Month to Month. Mobile Hotspot is available on all capable devices and allows a line to share its data allowance with multiple Wi-Fi enabled devices.

**Current coverage details and additional plan information can be found at www.verizonwireless.com. No domestic roaming or long distance charges. Coverage includes the Verizon Wireless 4G network; and the 3G and 3G Extended networks, while available. Usage outside of the United States will be billed at the international travel feature rate, if applicable, or pay as you go pricing, which can be found at www.verizonwireless.com/international. Lines activating on this plan must be on 4G HD voice-capable smartphones, except that existing lines on 3G smartphones may change to this plan while 3G service is available. Mobile Hotspot is available on all capable devices and allows a line to share its data allowance with multiple Wi-Fi enabled devices. Unlimited Messaging from within the United States to anywhere in the world where messaging services are available. For other messaging rates go to www.verizonwireless.com.

Data Sharing: Lines on the same billing account on custom share plans with the same data overage rate can share data. At the end of each billing cycle, any unused data allowances will be applied to the overages of other lines, beginning with the line with the lowest overage.

†This plan is restricted to the Verizon Wireless 4G network; and the 3G network, while available (domestic roaming is not available). Usage outside of the United States will be billed at the international travel feature rate, if applicable, or pay as you go pricing, which can be found at www.verizonwireless.com/international. Current data coverage details and additional plan information can be found at www.verizonwireless.com. Only Customer-provided, 4G-capable machine-to-machine devices may be activated on this plan. Activation on this plan requires a 24-month Line Term.

Data Sharing: Sharing among M2M Lines is available only among M2M Lines active on this plan. At the end of each billing cycle, any unused data allowances for lines sharing on the same account will be applied to the overages of the other lines on the same account beginning with the line with the lowest overage need.

Subscriber can activate this plan only on Samsung A20 devices with functionality limited to machine-to-machine service (“M2M Service”), provided each device is locked down via a software application that limits that device’s functionality to M2M Service. If the Samsung Galaxy J7V is no longer available, the Customer and Verizon will mutually agree on a replacement device. Should the functionality of these devices not be locked down, then Verizon Wireless will migrate the lines to a non-machine-to-machine plan, following 30 days’ notice. “M2M Service” refers to the use of the Wireless Service for the transmission of data between wireless devices and computer servers or other machines, or between wireless devices, with limited or no manual intervention or supervision.
